The applicant for a Variance or Special Use Permit must be either the property owner of the subject property or one of the following individuals authorized by the property owner to make the application: i) a person holding a valid option to purchase the property; ii) a person holding a valid lease for the property; or iii) a person holding a valid contract to purchase the property. Every application must include contact information for both the property owner and the applicant (if the applicant is not the property owner). Please note, when submitting an application through the Permit and Development Portal, the user may automatically be listed as the applicant. Additional contacts may need to be added to ensure all of the proper information is included.

A pre-application meeting with City staff is required *prior to* the submittal of a Board of Adjustment Application, *except for* Appeals which are filed directly with the City Clerk. Appeal applications can be found on the Board of Adjustment webpage [https://raleighnc.gov/board-adjustment](https://raleighnc.gov/board-adjustment).

For Variances and Special Use Permits please contact Eric Hodge, at 919-996-2639 or Eric.Hodge@RaleighNC.gov or Justin Bucher, at 919-996-2625 or Justin.Bucher@RaleighNC.gov to set up an appointment for a pre-application meeting.

For applications involving Transportation, Urban Forestry, or Stormwater, a separate pre-application meeting/consultation is also required with the appropriate plan review staff that focuses on the applicable code sections and request language under consideration. This pre-application meeting with the subject matter expert (SME) should occur before contacting BOA staff.

At a minimum, applicants should email the staffer(s) with a summary of the request and any pertinent exhibits/documents. The staff person will then decide if an in-person/web meeting is necessary prior to filing. After the pre-application meeting(s) the applicant should: understand the process including appropriate contacts and deadlines; understand the nature of request including relevant code sections, detailed measurements, and request language; and obtain answers to any outstanding questions or concerns. We encourage applicants to arrange a pre-application meeting at least 5 days in advance of the filing deadline to ensure the application is complete and accurate.

- Owners and tenants of all property within 100 feet on all sides of the Subject Property, all as listed in the Wake County tax records at the time of submittal. General Information about the Board of Adjustment

The following is provided for informational purposes only. For further information, applicants are advised to consult the appropriate sections of the North Carolina General Statutes, the City Code, and the City's Unified Development Ordinance ("UDO"). Please note the UDO proscribes that certain UDO provisions shall not be varied.

RALEIGH BOARD OF ADJUSTMENT

The Raleigh Board of Adjustment ("BOA") is a quasi-judicial body that considers requests for Variances, Special Use Permits (SUPs) and Appeals of Administrative decisions. The BOA consists of five regular members and two alternate members. Four regular members and two alternate members of the BOA are appointed to two-year terms by the City Council and must reside within the City limits. One regular member and one alternate member of the BOA are appointed to two-year terms by the Wake County Board of Commissioners and must reside within the City's extraterritorial jurisdiction.

WHAT IS A VARIANCE?

A variance, per UDO Section 10.2.10, is intended to provide relief where the strict application of a UDO provision would result in an unnecessary hardship. Variances are not granted to remove inconveniences. Please note certain UDO provisions may not be varied including allowed land uses, accessory structure regulations set forth in Section 6.7.2., and use standards set forth in Chapter 6.

WHAT IS A SPECIAL USE PERMIT?

Special Use Permits, per UDO Section 10.2.9, are for uses that may be appropriate within a particular zoning district, but because of increased potential for incompatibility with adjacent uses, the use is only allowed upon the presentation of competent, material and substantial evidence establishing compliance with one or more standards set forth in the UDO.
QUASI-JUDICIAL EVIDENTIARY HEARING

In considering applications, the BOA conducts a quasi-judicial evidentiary hearing. You or your legal representative are required to attend and present your case before the BOA. The Board hears and considers evidence presented at the hearing, and applies the standards set forth in state law and the City’s ordinance. The BOA’s decision must be based on competent, material, and substantial evidence submitted at the hearing. The BOA’s decision cannot be based on opinions inconsistent with the facts in evidence.

All testimony before the BOA must be “sworn” testimony; therefore, all persons wishing to speak on the matter must be sworn in. BOA members may not discuss the case with the applicant, neighbors, or others outside of the hearing. This is known as “ex parte” communication and is improper.

The applicant, the City, and any person who would have standing to appeal the decision under N.C.G.S. 160D-1402(c) shall have the right to participate as a party at the evidentiary hearing. Other witnesses may present competent, material, and substantial evidence that is not repetitive as allowed by the Board.

After the evidentiary hearing, the BOA will vote to approve, approve with conditions, or deny the application. The BOA can approve Variances only upon a concurring vote of four members of the BOA (out of a possible 5 votes). Special use permits (SUPs) and Appeals of an administrative decision require a concurring vote of three members of the BOA (out of a possible 5 votes) in order to be approved. Following the vote, the Board’s decision will be reduced to writing with findings of fact and conclusions of law and the written decision will be adopted when the meeting minutes are adopted.

All applicants are advised to have an attorney represent them as this is a legal proceeding. Applicants that are entities, including governmental entities, corporations, LLCs, LLPs and Partnerships must be represented by an attorney. Engineers, architects, real estate agents, planners and other non-attorneys may only appear as witnesses; they may not appear on behalf of an applicant or those opposed to an application in a representative capacity. In addition, only an expert can testify regarding matters that require expert testimony such as impacts of proposed activities on property values, traffic, or stormwater runoff. Individuals opposed to an application may appear and represent themselves at the hearing (entities opposing an application, however, must be represented by an attorney as explained above).

ADDITIONAL INFORMATION:
The aforementioned is provided for informational purposes only. For further information, applicants are advised to consult the appropriate sections of the North Carolina General Statutes, the City Code, and the City’s Unified Development Ordinance (“UDO”).

For further information on the quasi-judicial hearing process, please review “A Citizen’s Guide to Evidentiary Hearings” available on the City’s website.
