ORDINANCE NO. (1993) 302

FOR
REGISTRATION

93 DEC 22 PM 2:46

KENNETH C. WILKINS
REGISTER OF DEEDS
WAKE COUNTY

AN ORDINANCE DESIGNATING the Odd Fellows Building (Commerce Building), 19 West Hargett Street IN THE PLANNING JURISDICTION OF THE CITY OF RALEIGH, NORTH CAROLINA, A HISTORIC LANDMARK.

WHEREAS, the General Assembly of the State of North Carolina authorized the creation of a countywide Historic Preservation Commission for Wake County and otherwise provided for the preservation of certain historic sites and buildings by the passage of Part 3C, Chapter 160A, Article 19 of the North Carolina General Statutes; and

WHEREAS, the City of Raleigh agreed to participate in the countywide Historic Preservation Commission through an interlocal agreement with Wake County; and

WHEREAS, the Wake County Historic Preservation Commission has made an investigation and recommended the following property be designated a historic landmark; and

WHEREAS, the North Carolina Department of Cultural Resources has made an analysis that the following property is eligible to be designated a historic landmark; and

WHEREAS, on the 7th day of December 1993, a public hearing was held in the Council Chamber of the Municipal Building, Raleigh, by the City Council of the City of Raleigh to determine whether the hereinafter described property should be designated a historic landmark; and

WHEREAS, all requirements of Part 3C, Chapter 160A, Article 19 of the North Carolina General Statutes, preceding the adoption of this ordinance, have been met.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF RALEIGH, NORTH CAROLINA THAT:

Section 1. The property designated as the Odd Fellows Building (Commerce Building), in the planning jurisdiction of the City of Raleigh, North Carolina, be and is declared a Raleigh Historic Landmark. Said property being more particularly described as follows:

The Commerce Building (Odd Fellows Building), 19 West Hargett Street located on the southeast corner of West Hargett Street and South Salisbury Street (Wake County PIN # 1703.34 68 8302), approximately fifteen hundredths (.15) acre, including the entire parcel on which the building stands.

Section 2. Those elements that are integral to its historical, architectural, archaeological significance, or any combination thereof are as follows:

Exterior of the ten-story commercial brick and steel skyscraper, historically significant for its association with the Grand Lodge International Order of Odd Fellows of North Carolina, being Raleigh's first 1920's tall office building (constructed in 1923-24), being all of the parcel described in Section 1.

Section 3. No building, site, structure, or object that is designated in this ordinance located on the hereinbefore described site may be altered, restored, moved, remodeled, or reconstructed so that a change in design, material, or outer appearance occurs unless and until a certificate of appropriateness is obtained from the Wake County Historic Preservation Commission of its successors.

Section 4. No building, site, structure, or object that is designated in this ordinance located on the hereinbefore described site may be demolished unless and until either approval of demolition is obtained from the Wake County Historic Preservation Commission or a period of three hundred sixty-five (365) days has elapsed following final review by the Commission of a request for demolition (or any longer period required by N.C.G.S. 160A-400.14 as it may be amended hereafter).

Section 5. All owners of the property hereinabove described, whose identity and addresses can be ascertained by the exercise of due diligence, shall be sent by certified mail a copy of this ordinance.

Section 6. This ordinance shall be indexed after the property owner's name in the grantor and grantee indexes in the Office of the Register of Deeds of Wake County.

Section 7. City administration and the Wake County Historic Preservation Commission are hereby authorized to have erected an appropriate sign on the site herein described setting forth the fact that said site has been designated a historic landmark by action of the Wake County Historic Preservation Commission and the Raleigh City Council provided, should the owners of the hereinabove described property not consent to the erection of said sign on the described premises, City administration and the Wake County Historic Preservation Commission are hereby authorized and directed to have said sign located on the public right-of-way adjacent to said property.

Section 8. In the event any building, site, structure, or object is demolished in accordance with the ordinances of the City of Raleigh, this ordinance shall automatically be null and void.

Section 9. Any violation of this ordinance shall be unlawful as by law provided.

8. Statement of Significance

Applicable National Register Criteria

(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing.)

- A** Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B** Property is associated with the lives of persons significant in our past.
- C** Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D** Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations

(Mark "x" in all the boxes that apply.)

Property is:

n/a

- A** owned by a religious institution or used for religious purposes.
- B** removed from its original location.
- C** a birthplace or grave.
- D** a cemetery.
- E** a reconstructed building, object, or structure.
- F** a commemorative property.
- G** less than 50 years of age or achieved significance within the past 50 years.

Narrative Statement of Significance

(Explain the significance of the property on one or more continuation sheets.)

9. Major Bibliographical References

Bibliography

(Cite the books, articles, and other sources used in preparing this form on one or more continuation sheets.)

Odd Fellows Building
Wake County, N.C.

7. Narrative Description

The 1923-1924 Odd Fellows Building, more recently known as the Commerce Building, stands on the southeast corner of West Hargett and South Salisbury streets in downtown Raleigh, a relatively compact business district composed of governmental, commercial and office buildings dating from the mid-nineteenth through late-twentieth centuries. The ten-story, steel and masonry building is a simple yet handsome example of classic skyscraper design, featuring the characteristic base, shaft, and capital, with Neoclassical decorative elements.

The exterior of the Odd Fellows Building is clad in cream-colored brick and limestone block, accented with terra cotta ornamentation. The structure is seven bays wide and five bays deep. All windows above the second floor on the north (main) and west facades were replaced during renovations begun in 1982 with bronzed aluminum, one-over-one sash which replicate the size and configuration of the original wooden sash windows. On the second floor of these facades are three-part windows consisting of a one-over-one sash flanked by narrower one-over-one sidelights. These windows were also replaced with bronzed aluminum replicas of the originals. Ornamentation is limited to the north and west facades; the south (rear) facade has asymmetrically placed windows in a plain, red brick wall and the east facade is a party wall with the eleven-story Raleigh Building (NR 1993).

The two-story base of the structure features divided plate glass between two-story pilasters on the ground floor. The windows and asymmetrically placed double glass doors (ca. 1986) are separated from the second story by horizontal, decorative terra cotta panels with a simple circular ornament. Fourteen pilasters, each consisting of two slightly raised columns with capitals, support an entablature with a simple architrave, frieze and cornice with block modillions. Of interest are the Independent Order of Odd Fellows (IOOF) symbols which appear at the top of each pilaster between the capitals. Included here are such symbols as an all-seeing eye, an ax, and a serpent, all of which relate to the Order's tenets of love, friendship, and truth. A handsome cornerstone on the northwest corner of the north facade reads "I.O.O.F. TEMPLE 1923-1924" and includes the IOOF official symbol of three connected chain links.

United States Department of the Interior
National Park Service

National Register of Historic Places Continuation Sheet

Section number 7 Page 2

Odd Fellows Building
Wake County, N.C.

Composing the shaft stage of this skyscraper are the third through eighth floors. The entire section is clad in brick laid in a stretcher bond. Window surrounds on the third floor are terra cotta and there is a projecting terra cotta stringcourse above them. Beginning on the fourth floor, the windows exhibit brick headers and sills and are flanked by outlined brick panels which give the appearance of pilasters. The transition from shaft to capital is indicated by an entablature composed of a narrow architrave with cable molding, a simple frieze, and a denticulated cornice. Centered in the frieze, between the eighth and ninth floors, is a terra cotta IOOF crest.

The ninth and tenth floors compose the capital, the most decorated of the three stages. Here, two-story Corinthian columnettes and pilasters flank the windows. The building is crowned on the north and west sides by a Corinthian entablature. The architrave features fascia and Cyma reversa, a plain frieze, and a decorative cornice with egg and dart molding, modillions, dentils, fascia, Cyma recta and cresting.

Originally accessed by number 15, the modern entry into the building is at 19 West Hargett Street. An on-going renovation of the interior, begun in 1982, has replaced original finishes throughout the building with modern materials such as dropped accoustical tile ceilings and six-panel doors. Original interior finishes were simple, including plain board window and door surrounds, chairrails and simply molded picture rails. Grilled transoms topped interior wood and glass doors and hanging, glass globe light fixtures lit interior spaces. The hallways remain as originally configured, as does a functional stair located beside the lobby elevators.

The main lobby was completely remodeled in 1986. New elevators were installed in the original shaft; modern light fixtures and pink marble floors and walls were also installed at that time. Except for replacement of the windows, the exterior has seen only a cleaning and repointing of the masonry.

Integrity Statement

The Odd Fellows Building retains its historic exterior character and has continued in its original primary use as office space since its construction. As is true of many early twentieth-century office/commercial buildings, it has been necessary to make interior changes to allow for the continued profitable use of the building in modern business. The installation of dropped ceilings and replacement of doors and windows are typical of the types of changes which have occurred in

United States Department of the Interior
National Park Service

National Register of Historic Places Continuation Sheet

Section number 7 Page 3

Odd Fellows Building
Wake County, N.C.

other of Raleigh's early twentieth-century office buildings, including the Raleigh Building (NR, 1993) and the Professional Building (NR 1983). The Odd Fellows Building retains a high degree of exterior architectural integrity; the primary change being the replacement of original windows with modern materials which replicate the configuration and size of the originals. Its notable decorative elements remain intact and distinctive. The Odd Fellows Building retains overall integrity as a well-detailed 1920s skyscraper still functioning in its primary original use.

8. Statement of Significance

Summary

The 1923-1924 Odd Fellows Building is significant as a substantial, well-detailed, Neoclassical skyscraper constructed in the classic, or Chicago school, design formula in which the building is modeled after the base, shaft, and capital of a column. It is one of a group of skyscrapers surviving of its type built in downtown Raleigh beginning in 1908, but especially during the city's boom growth in the 1920s. Among these are the 1908 Masonic Temple (NR, 1979), the 1923 Professional Building (NR, 1983) and the 1924 Raleigh Building (NR, 1993). The Odd Fellows Building was designed by one of the South's most successful architectural and engineering firms, G. Lloyd Preacher and Co., and is one of only two buildings surviving in the state by the company (the other is the Cape Fear Hotel, Wilmington). The structure is also significant for its association with the Odd Fellows, a popular fraternal organization for men in the nineteenth and twentieth centuries which provided kinship and support for its members and which supported a large orphan's home in the state for many years. The Odd Fellows erected the building and rented offices to professional tenants, using the rental income to endow the orphanage. The top floor was utilized as a temple by the fraternal group. The Odd Fellows Building occupies a prominent corner location in central Raleigh and remains an important vestige of the city's past in the fast-changing downtown area.

Architectural Context

The Odd Fellows Building is a handsome Neoclassical commercial building exhibiting the classic, or Chicago school, design formula. This style of skyscraper architecture was begun in the 1880s in Chicago by Louis Sullivan and remained popular nationally through the 1940s. Its design premise is that the structure is modeled in three distinct sections after the parts of a classical column, with the first one or two stories composing the base; the middle stories, the shaft; and the ornamented upper floor, the capital. Each section is clearly delineated through the use of different materials, the degree of decoration, and often through specific demarcations such as string courses or cornices.

United States Department of the Interior
National Park Service

National Register of Historic Places Continuation Sheet

Section number 8 Page 2

Odd Fellows Building
Wake County, N.C.

Several notable examples of the type were constructed in Raleigh between 1908 and 1930; the earliest is the seven-story, 1908 Masonic Temple (NR 1979), the state's first concrete and steel building. Other early examples included the ten-story, 1913 Commercial National Bank, a richly detailed Gothic Revival building which was imploded in 1991, and the 1914 Citizens National Bank, a classical eleven-story skyscraper which also did not survive. The Odd Fellows Building, the Sir Walter Hotel (NR 1978) and the Professional Building (NR 1983) all range from nine to ten stories tall and were constructed 1923-1924; their finishes are Neoclassical, with a variety of ornamentation which includes carved stone, decorated cornices, Ionic capitals, pilasters, and various moldings.

The design of the Odd Fellows Building was conceived by one of the South's most prolific architectural and engineering firms, G. Lloyd Preacher and Co. Preacher (1882-1972) was a South Carolina native and graduate of Clemson College (now University) in engineering and architecture. His specialty was institutional building design and he worked in cities throughout the South. Preacher established his firm in Atlanta in 1922 and in 1923 opened his first out-of-state office in Raleigh. The Cape Fear Hotel in Wilmington (1924) and the Odd Fellows Building (1923-1924) are his only two extant buildings in North Carolina.

Historical Background

Secret fraternal societies have existed in the United States since at least the mid-eighteenth century, founded primarily to provide kinship, economic support, and charity for their members. These organizations, with memberships numbering over two million by the late nineteenth century, are credited with having a significant impact on American society through the teaching of democratic and moral values, and the support of charitable endeavors (Schmidt, p. 4). The Independent Order of Odd Fellows (IOOF) was first established in the United States in 1819 in Baltimore and was partnered with a fraternal order in England until 1842. Known as the "poor man's masonry" because it had neither the influence, wealth, numbers, or antiquity of Masonic lodges, the IOOF nevertheless became a popular and respected fraternal order in the United States with a wide following in the nineteenth century (Whalen, p. 118). Founded on the tenets of love, friendship, and truth, the IOOF was the first American fraternal order to offer members

United States Department of the Interior
National Park ServiceNational Register of Historic Places
Continuation SheetSection number 8 Page 3

Odd Fellows Building
Wake County, N.C.

financial benevolence for its sick and distressed, for orphans of its members, and for the burial of deceased members (Schmidt, p. 244).

The charter of the Grand Lodge of North Carolina was granted by the (Supreme) Grand Lodge at its session in 1842 and was instituted on January 6, 1843 in Wilmington (HDC, p. 4). Raleigh's two local lodges, the Manteo Lodge No. 8 and the Seaton Gales Lodge No. 64, were established in 1846 and 1870, respectively. Between 1871 and the 1880s the Raleigh area Odd Fellows rented office space in various downtown buildings, lacking a facility of their own (Vickers, p. 104).

A movement began in 1888 in Wilmington's Cape Fear Lodge to establish and support an orphan's home; this was consistent with the Order's founding purposes and its focus on benevolence. The Grand Lodge supported the idea and in 1891 voted to build the facility in Goldsboro. Construction was completed by 1892, when the first children were admitted to the "Odd Fellows Orphan Home." The facility proved popular, with the population of residents increasing to 137 by 1909. In order to raise funds to support the home, the orphans were divided into groups and sent on statewide tours competing with one another for their sustenance at the orphanage. Occasionally the children performed at the annual meetings of the Grand Lodge (HDC, p. 4). By 1914 the population of orphans had overwhelmed the facility. Repairs and improvements were a continuing problem, and other commitments stretched the budget for running the home (HDC, p. 4).

The end of World War I brought a period of boom growth and prosperity to Raleigh. Distribution functions already in place since early in the century expanded in the warehouse districts and outward along emerging transportation arteries. A massive civic improvements campaign vastly upgraded roads, electricity and water systems. Governmental and educational institutions expanded as well, drawing more workers into the urban core. Office space downtown increased apace and, during the first forty years of the twentieth century, many of the older commercial structures would be razed to permit construction of newer and larger structures, including the multi-story skyscrapers which so came to symbolize Raleigh's prosperity (Ross, pp. 22-23). This extremely favorable economic climate made it possible for the Seaton Gales Lodge to undertake to increase its endowment funds to improve the orphanage. The result of the

United States Department of the Interior
National Park Service

National Register of Historic Places Continuation Sheet

Section number 8 Page 4

Odd Fellows Building
Wake County, N.C.

successful campaign was a decision to build a permanent temple for the use of the Raleigh Odd Fellows, combined with a sorely needed, well-located office building which could be rented to professional clientele and the proceeds invested into the orphanage. Local civic leader and IOOF member Edgar A. Womble became Secretary of a building committee which selected the block of 11-19 West Hargett Street for the building site. Womble also led the committee in selecting G. Lloyd Preacher and Co. as the project architect. Preacher, himself a member of various fraternal orders, was well-known throughout the south for his work on institutional buildings. The mortgage bonds were handled by the prominent Atlanta financing firm of G.L. Miller and Company (HDC, p. 5).

The Odd Fellows Building was completed in the spring of 1924 and dedicated with great fanfare on May 20, 1924. The laying of the cornerstone ceremony highlighted the rituals and symbolism of the IOOF. The handsomely carved stone carried the IOOF emblem of three chain links, symbolizing the three degrees of the Order: Friendship, Love, and Truth (Schmidt, p. 245).

The Odd Fellows leased the 115 offices to professional clientele and held meetings in the top two floors of the building through the early 1980s. However, membership in the group had begun to dwindle, as had the number of orphans at the orphanage. In 1970 the home was closed and sold to developers for a shopping center. The Raleigh lodges began to suffer as the city's limits expanded and members found it too inconvenient to drive downtown to the old building (HDC, p. 6). The building was sold in 1981 to a development group and again several years later to an out-of-state investor. Between 1982 and 1986 the building underwent the first stages of complete interior renovation. In 1997 the current owners, a partnership, acquired the building and are currently completing renovation of offices. The first level remains a combination of commercial and office uses. The handsome building contributes significantly to the city's historic downtown streetscape and remains an important vestige of Raleigh's early growth and development.

10. Geographic Data

Verbal Boundary Description

The nominated property, at the southeast corner of the intersection of South Salisbury and West Hargett Streets, measures 96.50 feet east and west by 66.00 feet north and south. The boundary is delineated on the attached Wake County GIS map #PUB1, drawn to a scale of 1" = 95'.

Boundary Justification

The boundary encompasses all of the property historically associated with the 1923-'1924 Odd Fellows Building.
