Project Description:
- Revised scope for COA 169-16-MW
- Prepare house for previously approved house move with removal of front porch
- Prepare site with tree pruning

This card must be kept posted in a location within public view until all phases of the described project are complete. The work must conform with the code of the City of Raleigh and laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the Inspections Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

Pending the resolution of appeals, commencement of work is at your own risk.

Minor Work Application

Gorham House
420 S. Bloodworth St.

January 9, 2017

Description:

This application is to request approval to revise the scope to prepare the house for a previously approved house move, and prepare the site with a tree pruning. The project site is located within the Prince Hall Historic Overlay District.

A COA was issued for this project on 04/28/2016 with certificate number 059-16-CA, and renewed on 11/02/2016 with certificate number 169-16-MIV.

While making final preparations for the house move of the Gorham House, Wolfe House & Building Movers has identified that the porch roof must be removed for the house move. The house would otherwise be too wide to fit down the street. This is the only change in the original scope.

The porch roof will be reconstructed to match the existing porch roof. Drawings and details will be provided along with the renovation of the existing house per the conditions of the original COA.

Also, in order to prepare the site for the house move, we will need to prune the tree located at the rear of the project site.

It is our intent to save the large Pecan tree at the rear of our property, therefore we sought guidance from arborist Lisa Potts. Per her recommendation, we will be trimming three lower branches to improve the overall health and resilience of the tree. She recommends a balanced trimming for the long-term health of the tree.

Please see attached pictures for reference and more details.
PORCH ROOF MUST BE REMOVED FOR HOUSE MOVE. TO BE RECONSTRUCTED AT TIME OF RENOVATION TO MATCH EXISTING PORCH ROOF DIMENSIONS AND MATERIALS.
