Certificate of Appropriateness Placard for Raleigh Historic Resources

600 LEONIDAS COURT
Address
OAKWOOD
Historic District

Historic Property
042-15-MW
Certificate Number
4/15/2015
Date of Issue
10/15/2015
Expiration Date

Project Description:
- Replace front brick walk/steps with water-washed concrete;
- install new gravel parking area;
- plant new tree;
- increase size of rear patio;
- remove two planting beds;
- install lighting

OK to PERMIT

This card must be kept posted in a location within public view until all phases of the described project are complete. The work must conform with the code of the City of Raleigh and laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the Inspectors Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

Signature,
Raleigh Historic Development Commission

Pending the resolution of appeals, commencement of work is at your own risk.
Raleigh Historic Development Commission – Certificate of Appropriateness (COA) Application

- Minor Work (staff review) – 1 copy
- Major Work (COA Committee review) – 13 copies
  - Most Major Work Applications
  - Additions Greater than 25% of Building Square Footage
  - New Buildings
  - Demo of Contributing Historic Resource
- Post Approval Re-review of Conditions of Approval

For Office Use Only

**Minor Work Approval (office use only)**

Upon being signed and dated below by the Planning Director or designee, this application becomes the Minor Work Certificate of Appropriateness. It is valid until 10/15/15. Please post the enclosed placard form of the certificate as indicated at the bottom of the card. Issuance of a Minor Work Certificate shall not relieve the applicant, contractor, tenant, or property owner from obtaining any other permit required by City Code or any law. Minor work projects not approved by staff will be forwarded to the Certificate of Appropriateness Committee for review at the next scheduled meeting.

</table>
Written description – 600 Lecnidas Ct.

1) I am proposing to construct a short driveway / parking spot in the front of the house. (See site plan for dimensions, and photograph 1).
   a. There is an existing curb cut but the original owners decided against building a driveway.
   b. This construction will require the removal of part of an existing flower bed (see photograph 1).
   c. The new driveway will be washed crushed granite #57 gravel to match the neighbor's driveway at 601 Leonidas Court (see photograph 8). It will be 15'-6" deep and 11' wide.
   d. It will be bordered by mortared brick edging selected to match the home's foundation and existing front brick steps/walkway (see photograph 3).

2) I am proposing to remove the deteriorating dry laid brick paver entry walk and steps leading to the front door and replace with new water washed concrete steps in the same size and configuration (see site plan and photograph 2).
   a. The steps will be built using water washed formed concrete in the same size and configuration of the existing brick steps.

3) I am proposing to remove an existing overgrown garden bed in the back yard and replace with a new concrete paver patio to match my existing patio (see photographs 6 and 7).
   a. The concrete pavers will be 8'-4" long x 3'-0" wide with 6" of washed crushed granite #57 gravel in-fill. The same gravel used for the driveway will be utilized to relate the front and back of the house. Dark grey dye will be used in the concrete to match the older existing concrete more closely.
   b. I propose to plant a new Japanese maple tree in a mulch bed at the end of the new patio to culminate the axis of the patio and maintain some of the privacy screening lost by the removal of the overgrown bed.
   c. I propose to create a new bed of rosemary bushes at the back of the house to conceal the gas regulator. (See site plan and photograph 5)
   d. I propose to remove an undesirable volunteer 'weed' tree with a DBH of 6" and plant 3 white flowering dogwoods along the neighbors fence line. (see site plan and photograph 4)

4) I am proposing additions to the exterior lighting.
   a. Add 4 discreet recessed footlights around the back yard to subtly illuminate select plantings. See red light symbols on updated site plan and attached fixture cut sheet for clarity. These fixtures were selected to align with those shown in the bottom left image of the lighting portion of the Design Guidelines for Historic Districts (Section 2.7, page 20).
PROPOSED SITE PLAN
• Red dots = lights
MODEL 5271-LED  Landscape Series • In-Ground & Well Lights

FIXTURE SPECIFICATIONS:

HOUSING:
Injection-molded, glass-reinforced Ryton® R-4 composite for strength and high UV stability – warranted for ten years against corrosion.

LENS COVER:
Injection-molded, glass-reinforced Ryton® R-4 composite fitted to housing with a silicone O-ring gasket – providing a superior weather-tight seal.

FINISH:

LENS:
Clear, tempered, shock and heat-resistant, soda-lime glass lens - crowned (convex) to promote water runoff. Optical effect lenses are available; see accessories column on fixture ordering information chart.

LAMP TYPE:
High Output LED with Vista exclusive smart-driver, powered to operate for 50,000 hours.

OPTICS:
Integral high-efficiency optics available in spot through flood beam spreads.

ELECTRICAL:
Input voltage range 10.5–15V AC, regulated to achieve uniform illumination throughout the cable run of fixtures. Integral surge & reverse polarity protection.

MOUNTING:
In-grade. Conduit mount fixtures have two ¾” NPT inlets on bottom. Optional concrete mounting kit available; please see accessories column on fixture ordering information chart.

FASTENERS/INSERTS:
All fasteners are stainless steel with brass inserts.

WIRING:
Prewired with a three-foot pigtail of 18-2 direct-burial cable and underground connectors for a secure connection to supply cable.

All Vista luminaires are MADE IN U.S.A.

DIMENSIONS:

Vista Professional Outdoor Lighting reserves the right to modify the design and/or construction of the fixture shown without further notification.

Hi Tania,
Thanks for taking the time today to talk through my application. Please find attached, my updates, in red, to the written description, site plan, and light fixture cut sheet. These edits should encompass everything that we discussed earlier. Please let me know if there are any more adjustments I need to make. Thanks again for your help.
Best,
Thomas

On Mon, Apr 13, 2015 at 11:18 AM, Band, Daniel <Daniel.Band@raleighnc.gov> wrote:

Thomas: Thanks for turning in an application for a Minor Work COA for 600 Leonidas Court. I’ve reviewed the application and have the following comments:

- Please include pictures and spec sheets (when available) for the mortared brick edging, footlights, and floodlights.
- Please delineate the placement of footlights and floodlights on a plot plan.
- What is the size (DBH) and species of the “weed” tree proposed for removal?
- Use of stone steps do not clearly meet the guidelines and is not approvable by staff. The steps shown as an example in the application do not have an approved COA on file.
- The illumination of specimen trees does not clearly meet the Guidelines and is not approvable by staff.

For the two items above not approvable by staff you have a few options:

1. Amend the current application to eliminate/modify the request to clearly meet the guidelines.
   a. Eliminate the uplighting and
   b. Change the material of the steps to remain brick or be water washed concrete.
Thomas: Thanks for turning in an application for a Minor Work COA for 600 Leonidas Court. I've reviewed the application and have the following comments:

- Please include pictures and spec sheets (when available) for the mortared brick edging, footlights, and floodlights.
- Please delineate the placement of footlights and floodlights on a plot plan.
- What is the size (DBH) and species of the "weed" tree proposed for removal? 
- Use of stone steps do not clearly meet the guidelines and is not approvable by staff. The steps shown as an example in the application do not have an approved COA on file.
- The illumination of specimen trees does not clearly meet the Guidelines and is not approvable by staff.

For the two items above not approvable by staff you have a few options:

1. Amend the current application to eliminate/modify the request to clearly meet the guidelines.
   a. Eliminate the uplighting and
   b. Change the material of the steps to remain brick or be water washed concrete.
2. Amend the current application to eliminate the two work items and submit them separately as a new Major Work application.
   a. This would allow for continued processing of the remainder of the application once the above information is received.
   b. The new Major Work COA would require the $144 application fee plus other submittal requirements (found here)
3. Convert the entire current application to a Major Work. This would require the following additional items:
   a. $115 to supplement the $29 application fee already submitted.
   b. Stamped envelopes addressed to property owners within 100 feet (not counting the street). Use this app to get the correct names and addresses.

The next Major Work application deadline is April 15 for the May 4 meeting.

Please let me know how you wish to proceed.

Thanks,

Daniel
