for Raleigh Historic Resources

## Project Description:

- Change porch roof and side bay roof to standing seam copper

### OK to PERMIT

---

This card must be kept posted in a location within public view until all phases of the described project are complete. The work must conform to the Zoning Code of the City of Raleigh and to laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the Inspections Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

Pending the resolution of appeals, commencement of work is at your own risk.
