Project Description:

- Install access ramp for crosswalk

This card must be kept posted in a location within public view until all phases of the described project are complete. The work must conform with the code of the City of Raleigh and laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the Inspections Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

Description of Work

City staff received a request to have the crosswalk reinstated in the 100 block of S. Wilmington St between Hargett St and Morgan Street. A traffic study was done to determine if this location met the city's warrants to install a mid block crosswalk. This location exceeded those warrants. Before installing the crosswalk, Transportation Operations must install ramps to meet the American with Disabilities Act (ADA) requirements. To install the ramps, the existing granite curb will need to be saw-cut. The exiting sidewalk consists of a combination of Capital Grid Concrete and brick pavers. The proposed wheelchair ramp will be concrete with the exiting conditions returned around the new wheelchair ramp.
