This card must be kept posted in a location within public view until all phases of the described project are complete. The work must conform with the code of the City of Raleigh and laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the inspections Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

We will run the conduit of the directional boring from a 90-degree elbow and go underneath into the crawl space. From there we will place the exterior Box for the Fiber Slack. This will allow us to mount the box in the crawl space out of sight.

We will gain access to the crawlspace with a small penetration point through the brick pointing estimating the hole to be 2" or less in diameter using a new hole or an existing hole in the current pointing.
