Certificate of Appropriateness Placard
for Raleigh Historic Resources

Project Description:
Install projecting sign

Address
515 S Blount St

Prince Hall
Historic District

Historic Property

COA-0121-2019
Certificate Number

12/6/2019
Date of Issue

6/6/2020
Expiration Date

This card must be kept posted in a location within public view until all phases of the described project are complete. The work must conform with the code of the City of Raleigh and laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the inspections Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

Signature, Collette R. Kinne
Raleigh Historic Development Commission

Pending the resolution of appeals, commencement of work is at your own risk.
Type or print the following:

Minor Work Approval (office use only)
Upon being signed and dated below by the Planning Director or designee, this application becomes the Minor Work Certificate of Appropriateness. It is valid until ____________.

Please post the enclosed placard form of the certificate as indicated at the bottom of the card. Issuance of a Minor Work Certificate shall not relieve the applicant, contractor, tenant, or property owner from obtaining any other permit required by City Code or any law. Minor Works are subject to an appeals period of 30 days from the date of approval.

Description of Work:

As part of the overall renovation project for the commercial building located at 515 S. Blount Street, the PR PROS, LLC team will replace the original exterior sign on the front façade with an energy-efficient, LED lighted sign made of similar materials. Several sign fabricators have been contacted to secure cost estimates.

Scope of Work:
- Remove original two-tiered sign framework
- Fabricate replacement sign with new text and logo image
- Wire existing sign for low-voltage, LED lighting
- Install new sign on building exterior; front façade

Photo of original sign to be replaced:

Date submitted: 09/23/2019
Hi, Valerie —

I am reviewing your minor work COA application for the installation of signage. I have a few questions as a result of my review:

- I did not receive specifications for the proposed signage. Please send a specification for the sign that will be installed.
- I’m unclear on the scope of work. Will you be refurbishing and reusing the existing projecting sign or installing an entirely new sign?

Please let me know if you have any questions.

Thanks,

Collette

Hi Collette,

- A document with the sign specifications is attached.
- The scope of work is to recreate the existing sign (using some of the existing material). The plan is to reuse and refurbish the existing sign; however, the actual material where the verbiage was placed has eroded and is not usable, so that material will be fabricated. The selected company will make a determination whether any of the existing hardware is reusable. Basically, we will duplicate the original sign.

- I'm unclear on the scope of work. Will you be refurbishing and reusing the existing projecting sign or installing an entirely new sign?

Please let me know if you have any questions.
Thank you, I'm confirming that the sign is not lit internally.

Hi, Valerie –

I hope you had a great Thanksgiving holiday! My apologies for the delay, it seems like tasks keep piling up!

The last note I have for your signage application is that we were waiting on confirmation that the sign will not be lit internally. Design Guideline 1.8.10 states to "Light signs in a manner compatible with the historic character and the pedestrian scale of the historic district." Historically, internally lit signs were not common in Prince Hall. We can issue approval immediately for the COA as long as it's not an internally lighted sign.

Let us know if you have any questions.

Thanks!

Collette
