**STAFF FINDINGS**

Staff supports the request to plant street trees behind the existing asphalt path inside the public right-of-way as opposed to within the planting strip along Western Blvd. Western Blvd is a NCDOT maintained street and has reservations about planting directly adjacent to the travel lane of a street, especially when the street classification is one of a Major Street. By moving the location behind the existing sidewalk, but still planting within the public right-of-way, street trees can be planted, the City of Raleigh can still provide maintenance on the trees without encroaching onto private property, and the NCDOT has permitted the trees to be planted.
The purpose of this request is to seek a Design Adjustment from the Development Services Director, or designee, for a specific project only and, if granted, may be approved with special conditions and provisions.

This application and all further action shall be consistent with Section 10.2.18 in the Unified Development Ordinance (UDO). The consideration and decision of this request shall be based solely on the conformance of the findings, as outlined in Sec. 8.3.6, Sec. 8.4.1.E and Sec. 8.5.1.G of the UDO or the Raleigh Street Design Manual.
