**STAFF FINDINGS**

Powell Drive is developed with single-family residential and townhouses and based on R-6 zoning has a maximum allowable block perimeter of 5,000 linear feet. The measurable block perimeter which is shown on the attached map is 5,315 linear feet. This subdivision is within 83’ of Linville Drive which is parallel to this lot and would not be able to provide a public street within this lot based on the minimum street spacing requirements of 150’ - 600’. This design adjustment is approved as there would be no benefit to requiring access through this proposed subdivision.
