

# Blue Ridge Road Widening Project

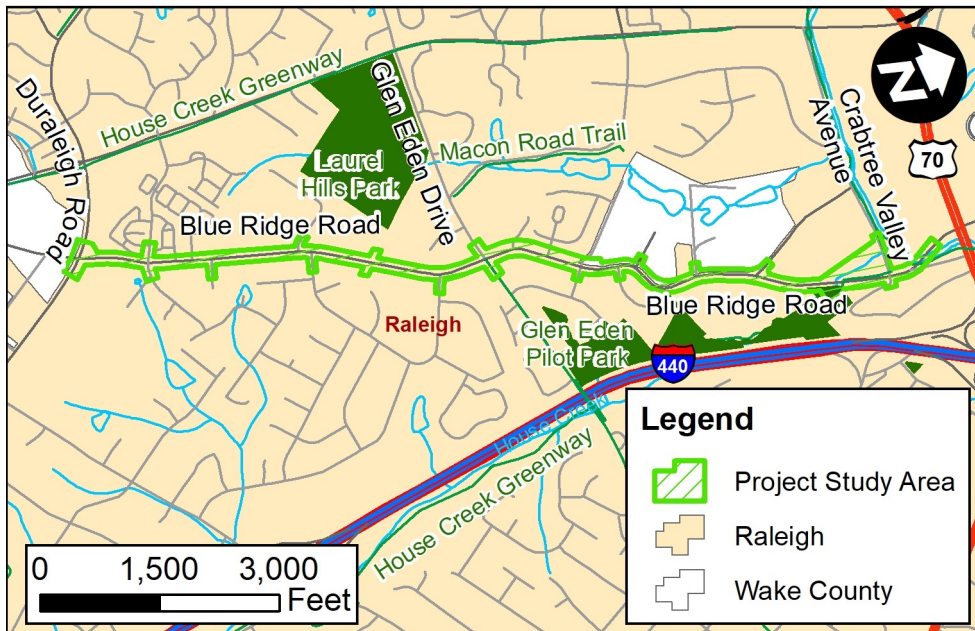

## Duraleigh Road to Crabtree Valley Avenue

25% Design Public Meeting - July 12, 2018

## Purpose of Today's Public Meeting

Thank you for your interest in the Blue Ridge Road Widening Project. The purpose of today's public meeting is to provide you with information on the project and to get your input on the proposed design. You are encouraged to provide comments on the proposed project. You may submit written comments tonight using the attached comment sheet and placing it in the comment box. You may also submit comments via mail or email to Reuben Moore no later than **July 27, 2018**.

## Project Description

This project is in the 25 percent design phase and has been prioritized as a major street project by the Capital Improvement Program.

The project proposes to widen a segment of Blue Ridge Road (S.R. 1670) from Duraleigh Road (S.R. 1664) to Crabtree Valley Avenue to three lanes, including installation of curb and gutter, a center turn lane or median, improved bus stops, traffic signal upgrades, streetlight upgrades, sidewalks, bicycle lanes, and enhancements to the existing street crossing at the House Creek Greenway. The project will have the features of a divided avenue. This includes a 40 mph design speed and a minimum right-of-way width of 75 feet with a center turn lane, or 80 feet with a raised median.

## Project Purpose

The purpose of this project is to provide a functional and safer multi-modal corridor for vehicles, cyclists, and pedestrians.

## Project Schedule

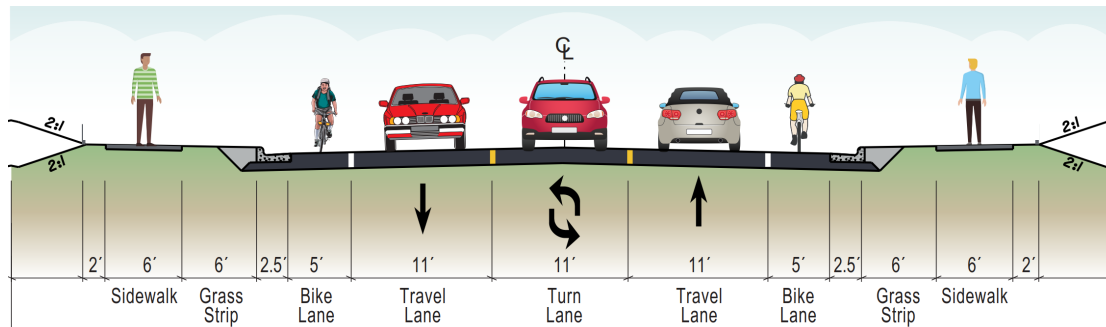

### Fall 2018

- 65% Design Public Meeting
- City Council Design Presentation

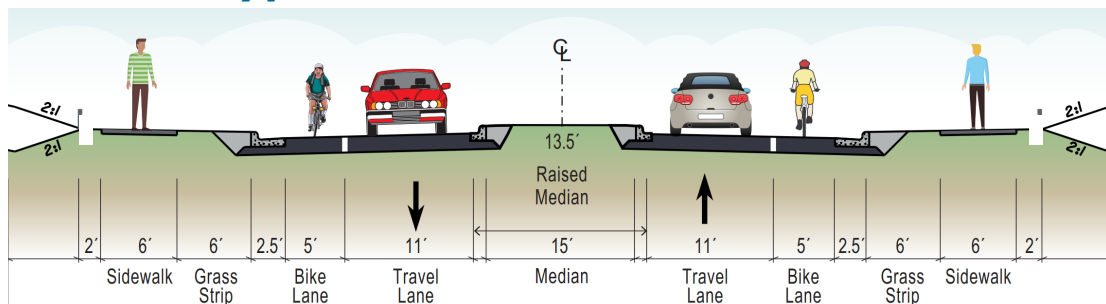

### Fall 2019

- Complete Right of Way Acquisition
- Advertise for Construction Bids

## Typical Section - Center Turn Lane

## Typical Section - Raised Median

## Coming Up Next

At the end of the comment period, all comments will be compiled and reviewed by the project team. As the proposed designs are updated, the comments received will be taken into consideration. The revised designs will be presented to the public at a public meeting anticipated for Fall 2018.

A design presentation through Raleigh's City Council to approve the project and authorize right-of-way acquisition is scheduled for Fall 2019.
