

**LUMLEY RD AND ARCO CORPORATE DR**

- 1** Eastbound bicyclists travel to intersection using the multi-use path.
- 2** Wait for signal and proceed across crosswalk to the bicycle box. They queue ahead of motorists in the green bicycle box and position to cross the road when the light turns green.
- 3** Travel through the channelizing island and merge into the eastbound buffered bicycle lane on the south side of the roadway.

**HOW DO I TRANSITION BETWEEN THE MULTI-USE PATH AND THE BICYCLE LANES?**

- 1** Westbound bicyclists travel to intersection using a buffered bicycle lane. They travel through the intersection on the green signal and transition to the westbound segment of multi-use path on the north side of the roadway.

**Two-Stage Turn Queue Box**

- 1** Enter the intersection on a green light and wait in the turn box.
- 2** Wait for the cross-traffic light to turn green then continue through the intersection
- 3** Travel through the channelizing island and merge into the eastbound buffered bicycle lane on the south side of the roadway.

**Traditional Left Turn Using Bike Box**

- 1** Merge from travel lane to through bike lane.
- 2** Wait in bike box at intersection until light turns green.
- 3** Proceed through the intersection on green light, travel through channelizing island and merge into the eastbound buffered bicycle lane on the south side of the roadway.

**HOW DO I TURN LEFT?**

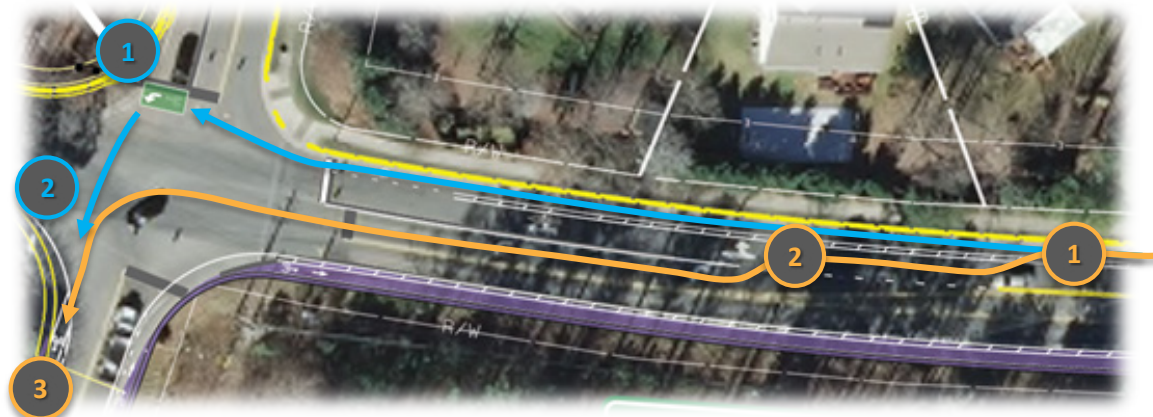

**LUMLEY RD AND ARCO CORPORATE DR**
