Winthrop Drive Sidewalk Project

Roadway Design & Construction

Raleigh

About the Project

The purpose of the Winthrop Drive Sidewalk Project is to improve pedestrian safety by installing a sidewalk on the east side of the street from Sleepy Hollow Drive to W. Millbrook Road.

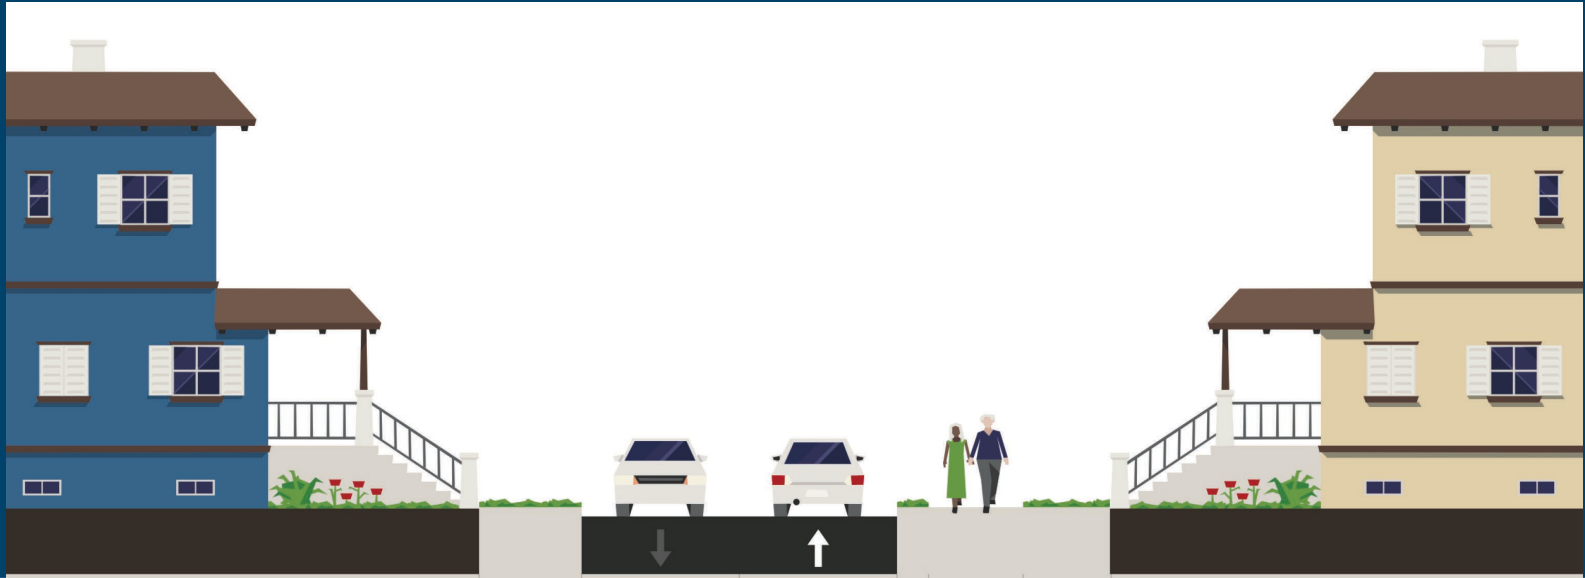

City Council approved this project on May 1, 2018, after a successful citizen's Sidewalk Petition.

*For more information about the City of Raleigh's sidewalk Petition Program visit
<https://raleighnc.gov/home/content/PWksDesignConst/Articles/SidewalkPetitions.html>*

Scope of Project

We propose to install a 6-foot wide sidewalk placed 2.5-feet behind the curb. We will also install curb ramps and curb and gutter where needed.

Existing Conditions

Winthrop Drive has no sidewalks. The new proposed sidewalk will make it safer for pedestrians.

Raleigh

Project Plan Map

Key

-  Sidewalk
-  Concrete driveway ramps and curb & gutter
-  Gravel driveway ramp
-  Existing right of way
-  Existing easements
-  Electrical easements
-  Temporary driveway easements

For full size project map, see meeting information section on website

The preliminary plans are available in the public meeting section of the website.

Raleigh

What's Next

The project design is being reviewed by Development Services. The next major phase will be the easement acquisition phase. City staff will contact you if your property will be impacted as part of this project.

Project Schedule

Date	Description
April 2020	Public Review and Comment
Summer 2020	Easement Acquisitions Complete
Summer 2020	Advertise for Construction Bids
Fall 2020	Award Construction Contract
Spring 2021	Project Complete

(For construction this project may be combined with other sidewalk projects in the City)
