

# Turning Acres Into Assets

Orbis helps asset managers and investors simplify the process of acquiring and managing large land holdings. From pre-sale due diligence and data management to property taxes and recreational leases, we streamline every step of land and natural resource management. All so you can work more efficiently, make smarter decisions and maximize the value of land assets.

## Orbis at a Glance

- ▶ \$200M+ in recreational leases processed
- ▶ 10.5M+ recreational licenses administered
- ▶ \$1.2M in client property taxes saved
- ▶ 5M+ acres of timberland management data managed
- ▶ 3.3M acres of land records hosted and administered
- ▶ 9.2M+ acres of land transactions analyzed

## Technology Solutions

From transaction due diligence to property tax and lease management, Orbis offers a suite of solutions that make it easier to manage your assets.

Land Investment  
Technical Analysis  
Service

**LITAS**
