Dear Property Owner or Resident:

You are receiving this letter because your property or residence is within 500 feet of a city-initiated rezoning request.

Request	A city-initiated rezoning request associated with the New Bern Station Area Plan (www.raleighnc.gov/station-area-plan-new-bern)
Summary	This rezoning request would change the zoning for 16 parcels (see map on reverse page). These parcels were previously rezoned through a portion of rezoning request Z-92-22. New state law, made effective last year, reverted the zoning districts of some parcels to what they were prior to Z-92-22. As a result, the city is organizing a new rezoning request that complies with state law and re-applies the zoning districts previously approved by the City Council.

Staff will discuss this request at an upcoming public meeting.

When	Thursday, November 6, 2025, starting at 6:30 p.m.
Where	Tarboro Park Community Center 121 N. Tarboro Street

If you have questions, please reach out to the staff contact:

Matthew Klem, Matthew.Klem@raleighnc.gov, 919-996-2676

What is a rezoning?

A property owner requests a rezoning to change the rules for how they can develop their land. This could mean land use (residential, commercial, industrial, etc.) and/or building characteristics (maximum building height, minimum front yard, etc.).

Does this apply to my property?

This request would only change the zoning to the property listed on the next page. You're receiving this letter because you own or rent property nearby. A map of the properties requested for rezoning is enclosed.

How can I participate?

- You can attend the neighborhood meeting. At the meeting, staff will provide information about the request and the rezoning process. There will be time for questions and comments.
- You can email the Planning Commission: Planning.Commission@raleighnc.gov.
- You can submit written comments to: Raleigh Planning and Development, Attn: Matthew Klem, PO Box 590, Raleigh, NC 27602

Sincerely,

Patrick O. Young, AICP
Planning and Development Director
