

New to the study? Let's catch you up.

The Dix Edge Area Study is a project managed by Raleigh Planning and Development. The purpose of the study is to create a plan with policies and actions to guide the Raleigh City Council in future legislative decisions like zoning and budgeting.

These decisions can impact things like:

- Affordable housing
- Bicycle and pedestrian transportation
- Future development
- Parks and greenways

There is a lot of great information on the project website that summarizes the work of the study to date including feedback from the community on issues and priorities for the future of the area.
