VISIONING

① INFRASTRUCTURE
- ROADWAY IN. INTEGRATED INTO THE REZONED ST. AUBANS AREA DEVELOPMENT
- STORMWATER CONTROLS → THROUGHOUT DISTRICT
  * IMPACT OF NEW DEVELOPMENT

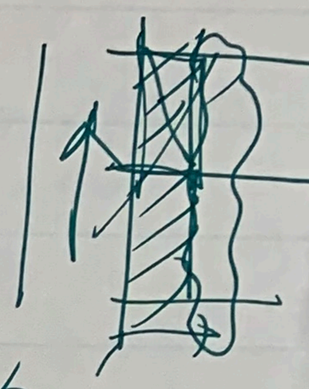

② NEW DEV. ON 6 FORKS → PUT DRAINAGE ONTO NEIGHBOR'S LOT
(3 LOTS S. OF DUNKIN' DONUTS)

③ 12-STORY ZONING ON 6-FORKS?! - This was pulled out of 6-forks plan
- BUILDING HTS. + REZONING MOVED INTO ST. AUBANS PLAN ~~BUILDING HTS. CONSIDERATION~~
  - NEIGHBORS NEED TO BE AWARE AND INPUT ON SPECIFIC RECOMMENDATIONS BEFORE REPORT IS FINALIZED → NO SURPRISES.

④ DETERIORATING INFRASTRUCTURE IN NEIGHBORHOODS
- ABOVE GROUND ELECTRIC - vulnerable in storms
- Underground - H_2O, Sewer - 50-60 yrs old...

⑤ LEVEL OF SERVICE / ROAD PERFORMANCE
- IMPACTED BY CARROLL JUNIOR HIGH, ST. TIMOTHY, EFFIE GREEN, BROOKS ELEMENTARY - NORTH BROOK } 6 FORKS
- ROWAN / CARROLL INTERSECTION - 3 WAY STOP

⑥ NORTH/SOUTH GREENWAY CONNECTION TO CRABTREE CREEK

⑦ DARTMOUTH + CAMELOT needs a 3-way stop
- Can't make a left onto Camelot from Dart.
b/c of backup/through traffic on ST. Albans.

⑧ Rowan @ 6forks. (needs a turn lane)
- look @ this intersection

⑨ LAKEMONT — might benefit from an Conservation Overlay?
protect aga. - tear downs
- lot subdivision

① VERIFY 6-FORKS PROJECT BOUNDARY
- ~~[illegible]~~ ROWAN TO LYNN ROAD? (APP. BY CITY COUNCIL)
OR 440 to LYNN ROAD?

② CORRECTION TO SATURDAY COMMENT
- 3-WAY STOP NEEDED AT CAMELOT + LASSITER MILL (NOT DARTMOUTH)

③ MTG OR PRESENTATION @ CARDINAL IS RECOMMENDED (TOM FORD, CEO)

④ 6-FORKS, WARE FOREST + FALLS OF NEUSE ARE STATE SECONDARY ROADS (4-DIGIT #)
- ~~[illegible]~~ WHAT IS PROCESS FOR IMPROVEMENTS?
- IS STATE INVOLVED?

Issues as expected?

Cars

Lassiter Mill @ Six Forks - congestion
Cars backing up on Lassiter Mill trying to get onto Six Forks, bike lanes took out vehicle lane, still seems dangerous for cyclists
Speeding on Dartmouth
Need to improve pedestrian safety at Six Forks and Dartmouth

Surprises?

St Albans at SixForks has a lot of traffic backing up, how will St Albans handle additional development?
Will more people cut through neighborhood?
Southbound traffic on Falls of Neuse to Millbrook can avoid stoplights by going through neighborhoods
Turning from Quail Hollow onto Millbrook is dangerous!
People cut through using Quail Hollow to Compton
Northbound Wake Forest has difficulty making left onto St. Albans because of cars in intersection backed up from signal to south
Need traffic calming in neighborhood, better flow on thoroughfares

1

Make sure trip growth projections are accurate. What are realistic internal capture rates? (for mixed use)

Can ride sharing help congestion?

Can parking requirements be shifted to ride share drop off areas?

Concentration of shopping centers at SE quadrant of Wake Forest / I-440 causes congestion of existing grid. (Industrial, Wake Town, etc.)

Difficult for pedestrians to cross Wake Forest at Wake Town Dr.

Can Hodges be expanded?

Lane widths on Wake Forest near I-440 are too small.

Hard to turn to enter Duke Hospital when southbound on Wake Forest (left turn)

Too far to walk to bus routes, connections take a long time, Park and Ride would encourage bus use.

Industrial & Six Forks is too congested, needs turn lanes

People cutting through Rucker St to get westbound on Six Forks from Creekside Want the Kroger back.

Big Branch has localized flooding north of Calthorpe Creek (Anderson Dr)

Hard to make a left turn from Nevaho to Southbound on Wake forest. Need turn lanes on Nevaho

Low visibility making left turn from St Albans to westbound New Hope Church

Illegal left turns from New Hope Church to St Albans

Streetside parking on Industrial impedes travel

(1)
12/3

Take Aways

- KEY CONCERNS
- MAIN ISSUES
- OTHER THOUGHTS, ...

- Speeding on Millbrook near Ivy / Quail ✓✓ Oak Hollow
- Hardimont + St. Albans traffic, speed, lights not working
  + ↳ Plan for this running into new development.
- Lanes on WFR (Wake Forest Rd) are terrifyingly narrow between Quail Corners (Millbrook Rd) and 440.
- Pedestrians need separate walk cycle
- CARS BLOCK INTERSECTIONS-CONSTANTLY RUN RED LIGHTS

- Tax incentives for TDM measures (staggered schedules, telework, etc)

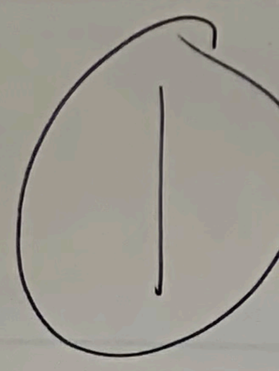

- Six Forks Rd & Wake Forrest Rd cannot handle the existing traffic - No way they can handle more!

- Wake Forest Rd lane width should meet City Regulations

(12-3)

KEY THEMES

- Issues
- Concerns
- Surprises ?

sidewalks & lighting on Navaho from Wake Forest to Bush → student / ped traffic to nearby Bus stop

Bridge (wolf pack over RR) high speed rail thru this area

narrow curving lanes (on six forks) side swipe crashes feels very uncomfortable

difficult left turns off Six Forks tight right turns into driveways

How will widening 440 impact Traffic in the area?

Six Forks missing sidewalk from 440 - Anderson — feels uncomfortable

Carroll Middle parallel parking on both sides narrows the roadway (especially during events) → other options for getting into Carroll

Concern over the Wake Forest / 440 intersection (diverging diamond concept)

Solutions for Quail Hollow?

Lefts onto Millbrook are difficult

hard to get to Denny's

(2)
Non-Cars

Discussion Themes

- NEW DEVELOPMENT, % OF-LOCAL CAPTURE ? → ADDRESS TRAFFIC
- BUSES CAUSING CONGESTION ? → ADDRESS. TRAFFIC
- LAST MILE CHALLENGE → MORE SIDEWALKS? BETTER BUS ROUTES.
- FITTING BIKE-PED-MOTOR IN INFRASTUREFURE (BALANCE) → BALANCED INFRASTRUCTURE.
- connections to major corridors → MORE SIDEWALKS.
- HIGH SPEED TRAFFIC and DEAD END SIDEWALKS → SAFETY (PED)
- CONGESTION & PARKING ISSUES EFFECT CHOICES OF WHEN TO TRAVEL → ALTERNATIVE MODES PEOPLE MOVERS, UBER
- CUT THROUGH TRAFFIC FROM HIGH SPEED TRAFFIC & TRAILERS → RESTRICT ACCESS ~~FOR~~ PED SAFETY.

KEY Themes

· ISSUES
· Concerns
· Surprises?

21

Long-term, consider a tunnel beneath I-440 to connect St. Albans to Navajo.

Greenways are the smartest use of public funds ever!

Quality of Sidewalks

Have to cross road to get to another segment of sidewalk in some locations! (Not good sidewalk connectivity)

Ability to access NH via greenways/bike facilities is key to future quality-of-life in this area!

Bike/Ped (or car) tunnel on Six Forks @ NH

Wake ~~Forest~~ Tech Connections to transit

Connect "sidewalks to nowhere" and create a continuous pedestrian network.

Poor pedestrian access @ Wake Tech to Navajo and Wake Forest

(2) Key Themes

12-B

SAFETY

+ Current transit dwell / layover + frequency is potential challenge if/when YOUR bus is missed. Inconvenient.

+ Future transit routes ⇝ Aligning w/ employment destinations
+ Ped Safety + improved Crossing at Six Forks Rd.

- MIDTOWN "R" LINE
→ TIMING OF PED PHASE @ DARTMOUTH, & LASSITER MILL TO CROSS G'FORKS (TOO SHORT)
+ Calming of traffic speeds
RULES FOR E-SCOOTERS Ditto Ditto!

- Encourage carpooling

- Parking garages on perimeter of North Hills/other commercial areas

- Ending sidewalks + no crosswalks.
- Don't put in bike lanes if you can't extend all the way to the next destination
  i.e. bike lane on Glen Eden proceeding East across Glenwood stops creating a dangerous pinch on the east side

KEY THEMES:

- Concerns
- Issues
- Surprises?

3

Affordable housing

- Redevelop Industrial sites
- Urban Form transitions (height) ✓✓
- North Hills additions should continue same pattern of transition
- How does Raleigh/Midtown compare to other places with respect to public space?
- AFFORDABILITY - HOW TO MAINTAIN?
- IDENTIFY WHERE TO GO / HOW TO CONNECT TO TRANSIT

12/8

3

Key Thoughts/Themes

Wake Forest → not same characteristic as Six Forks - ? Improve?

between St. Albans & Bland

Wake Forest Rd between 440 and St. Albans → too narrow lanes
stressful to drive

Navajo dr and Wake Forest intersection needs a green right of way light

Affordable Housing needs and tree conservation density of dev. | height NIMBY → YIMBY Options! Housing Types

St. Albans to Wake Forest → Congested — No Right Turn → Add Turn Lane
→ Already Gridlocked

Affordable Housing Options — Where is the middle.?

Low income apartments ——?—— Expensive Single Family

Six Forks "Housing void"

Turn NIMBY into YIMBY ; District needs housing options

Density is related to, but not always required

Save & Value Trees

(3)

- We need a main thoroughfare
- Extending Six Forks Rd to Capital Blvd
- Preservation of existing housing – Maintain Affordability
- ~~My concern~~
- What I'd like to see next presentation; tie in accident data on main thoroughfares b/c Wake Forest & Six Forks Rd have some of the highest accident rates in the state

+ SIX FORKS CORRIDOR DISTRICT NAME DOES NOT RESONATE, CONFUSING — BW Reggy Ray
+ ANDERSON FOREST STORMWATER & SEWER PINCH POINT/ISSUE
+ CIRCULATION AROUND WEGMAN'S? IMPROVEMTS PLANNED?
+ TRAFFIC CONGESTION IN GENERAL, DRIVER COURTESY

- Where is the data coming from? How much is anecdotal vs. data driven? (Specifically for traffic)
- Do we have additional tools to address speeding in the neighborhoods? (beyond speed bumps) Comprehensive Traffic Plan for Neighborhood
- Zoning in the area is preventeding a slow evolution of compact housing, denser neighborhoods to maintain affordability

- Impact on the school system; do we anticipate a larger number of children entering the school system?
- How will they get to school, etc.

(3)
Dev / Land Use

- Don't sacrifice any bike/ped infrastructure to make room for development or extra cars
- Implement non car crossing as close to wake forest over the beltline as possible

(3)

- AFFORDABILITY & CONNECTION TO EMPLOYMENT
- OPPORTUNITY FOR BETTER TRANSIT TO CONNECT NODES?
- CARDINAL ANOTHER TOWER

[NOTE FOR ROBERTA -
SEND ROBERT P. TO SIXFORKS & NORTHWOOD - VACANT PROPERTY]

KEY THEMES

- Concerns
- Issues
- Surprises?

4

Six Forks west of Wake Forest is dangerous for bikes and pedestrians because there is no sidewalk (Between North Hills and Anderson)

* There is more stormwater volume than there used to be along the north side of North Hills East (St Albans)

Crabtree Creek → * Greenway goes on-road west of Lassiter Mill, not pleasant to ride on

* Tennis courts and playgrounds are desirable recreation/park experiences
* Lack of sidewalks on neighborhood streets (Wadimont)
* May need more park facilities on the east side of study area
  ↳ (Bush / Atlantic / Wolfpack)
* I-440 is a barrier for bicycle travel
* More stormwater ~~on~~ on streets on Quail Hollow, Wadimont since infill development has been taking place
* Big Branch is a wildlife corridor for deer, other animals
* Development of greenfield sites on St Albans may displace animals
* Public pool in Eastgate Park might be nice
* Community centers are aging
  * Some greenways trails are not paved, would be better paved
* Could there be a public performance venue? Maybe in Eastgate Park.

Flooding at Quail Hollow and Wadimont is more frequent

4

- Lassiter Mill / Camelot needs signal
- Traffic from school drop off/pick up trails out into neighborhood
  - Carroll Middle & Douglas Elementary [Magnet School]
- North Hills traffic backs up Lassiter Mill south of study area (2 Signals)

4

Benches in parks are uncomfortable

Area between parking lot and playground in Eastgate Park is a "dead zone", the park could have more programming

Bathrooms in Eastgate Park not pleasant

More/better playground equipment needed in Eastgate Park

Park and school locations should be coordinated to share facilities

12/3

(4) KEY THOUGHTS / THEMES

Greenway access w/o needing street/parking

Preservation of tree canopy!!! DITTO - ASAP - week by week we are loosing 100YR old trees for LAWNS that need to be watered

Discontinuous bike lanes, not both sides of road

MAINTENANCE OF Streams, culverts, drainage — remove debris

Longer Pedestrian crossing, protected phases (Barnes Dana?)

Concerns over Wildlife Protection w/ more development

Bike lanes along cut through and busy streets = not good

Locate greenways to less vulnerable locations AND maintain existing greenways.

Require Resid. Devel to mage RUN off ON their OWN Property

Add park facilities ~~for~~ to keep pace w/ new residents (Scotland area?)

★ Questions/Observations

(4) How to route greenway N/S near homes?

How & where? Will Greenways cross 440? >x1

Supportive of greenway plans & connectivity

100 yr. floods happening more frequently! x2

Water/Flooding washing out greenways

Greenway status behind Lady of Lourdes

Tree loss from development and impact on floodings

More runoff from development/impervious surfaces

Flooding's gotten worse x1

Difficulty parking and accessing local area, but not through other modes

Update existing Stormwater measures!

(4)

4

Natural Systems

Ditto

Greenway route along Quail Hollow

Separated bike lanes preferred to on-road

Greenway along Quail Hollow to Park

Upgrade Eastgate Park (Trash can, sidewalks, buildings pond, landscaping, pond)

Clear Fallen trees + undergrowth along Crabtree Creek

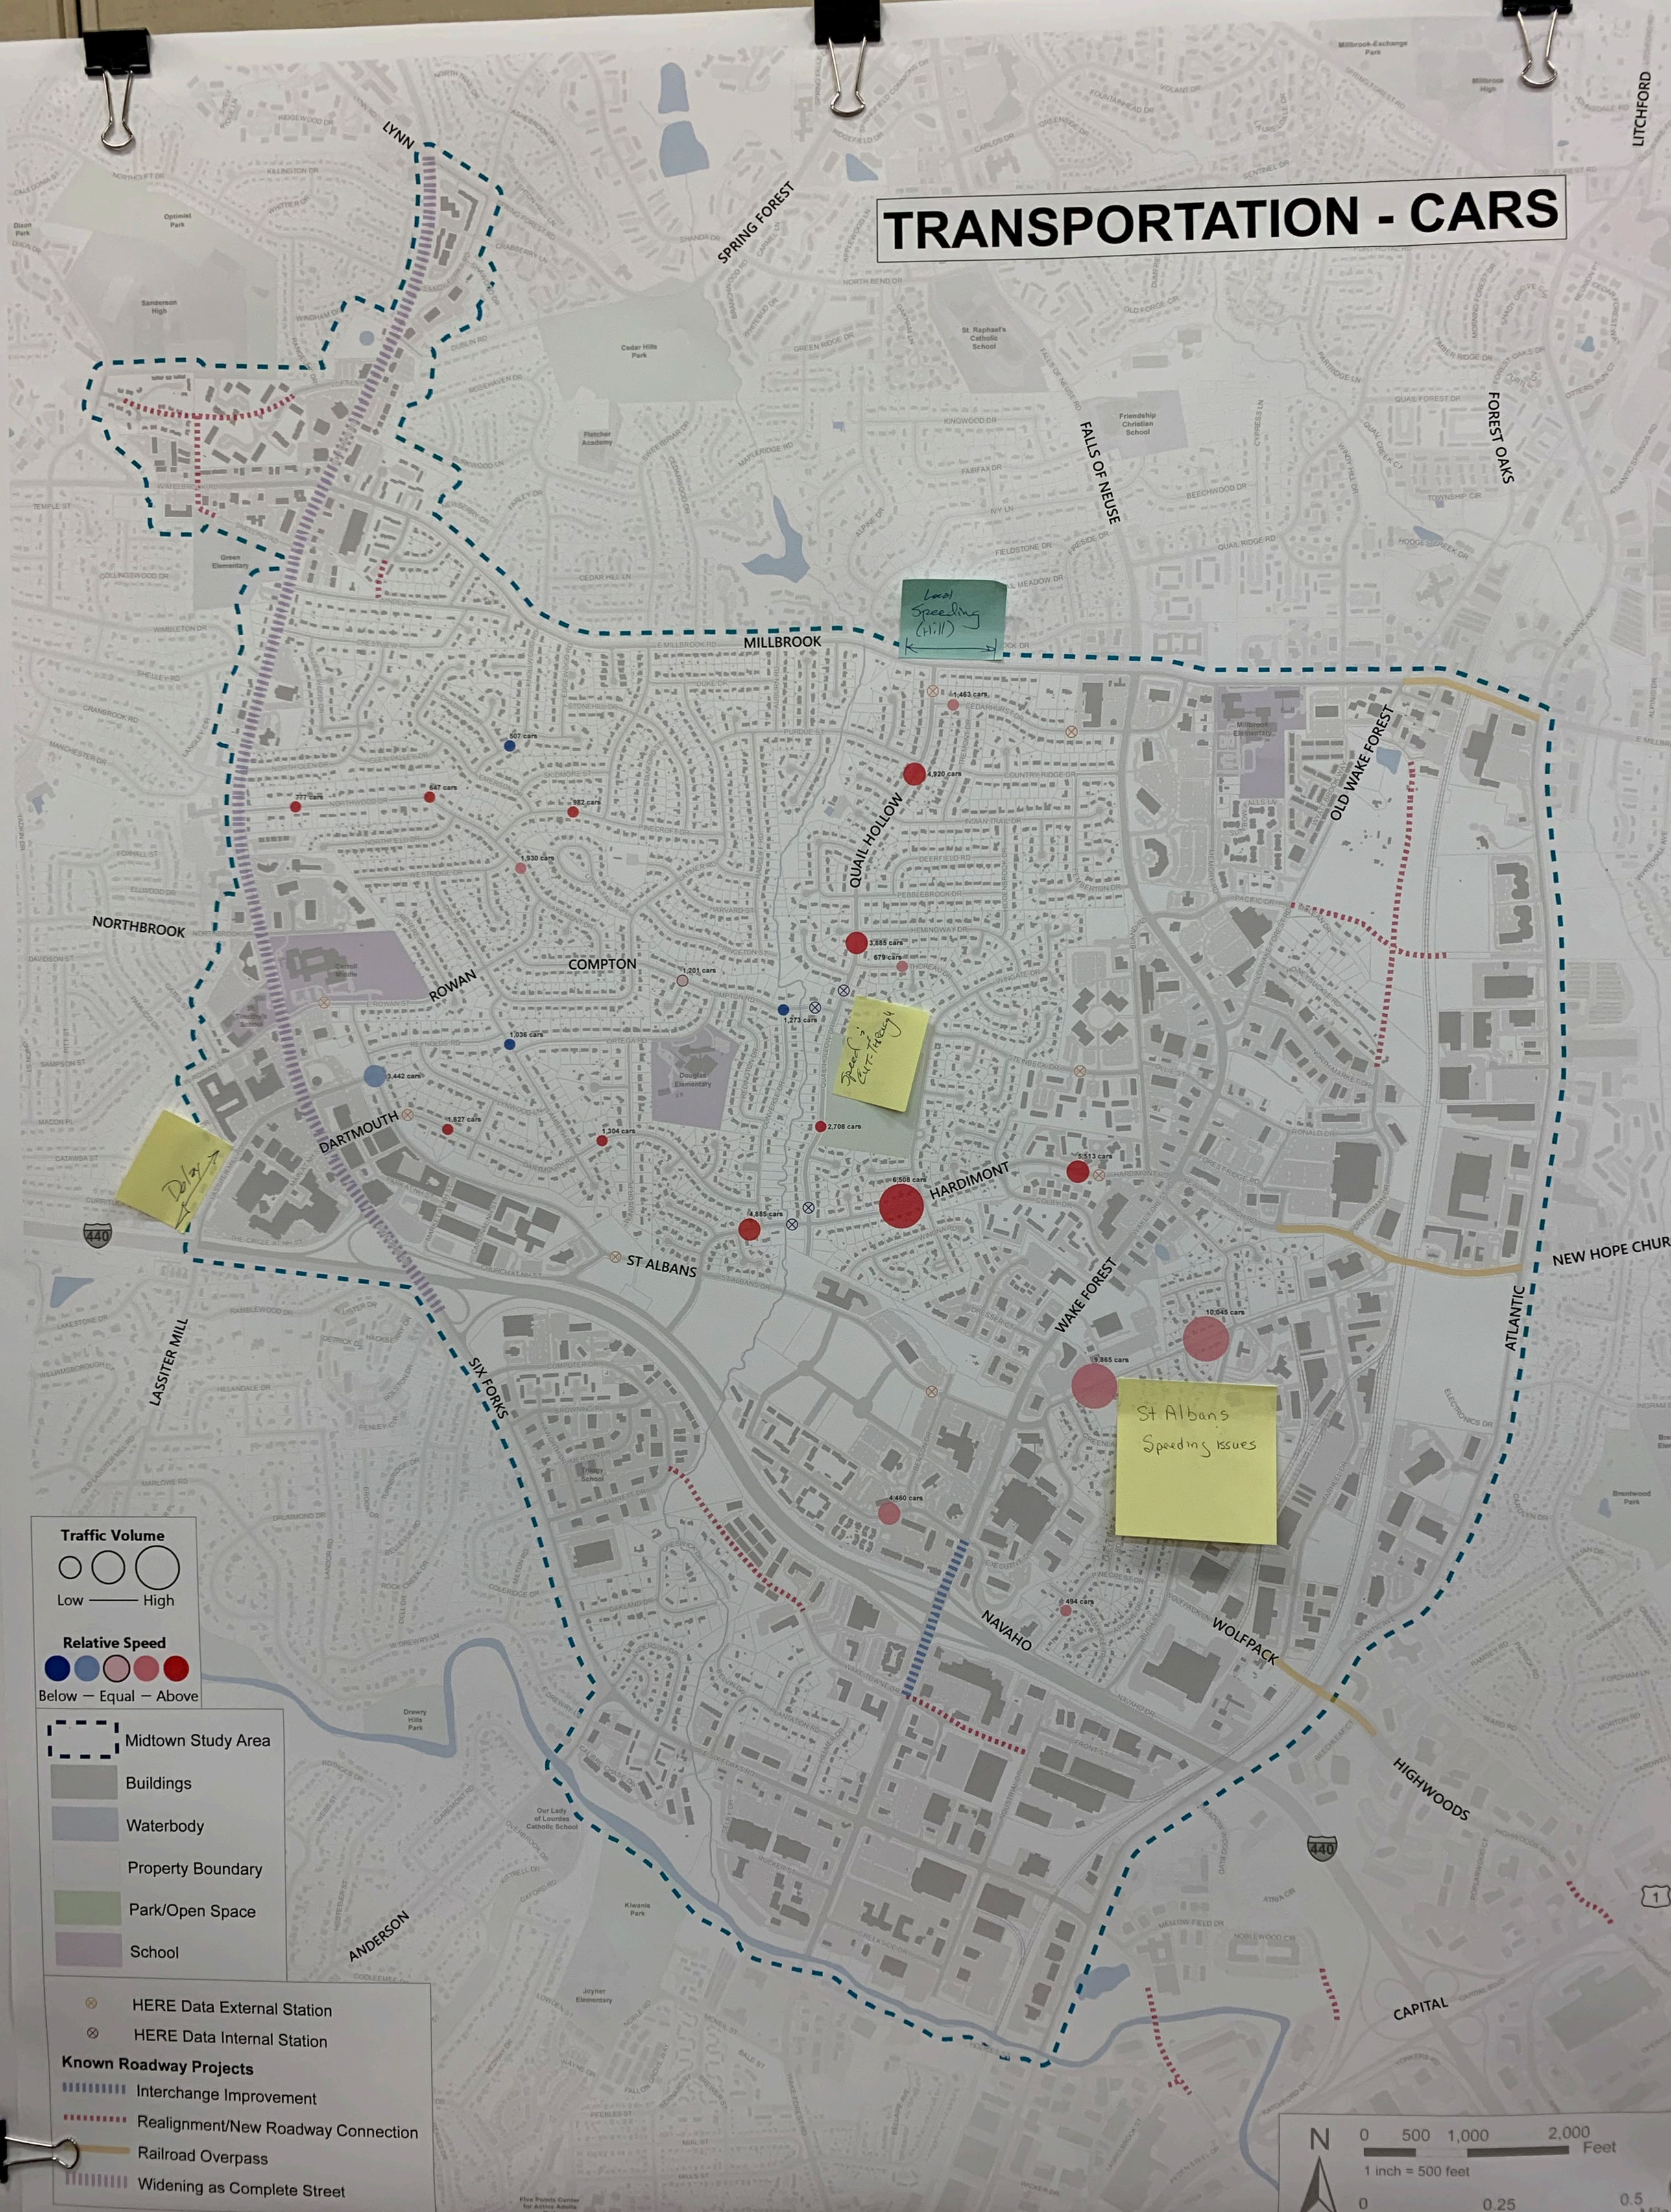

Concern about growing "heat island" of more urbanized landscape and loss of trees / green cover

More local parks

~~Improve ped access~~

Trouble crossing Wake Forest to access parks

MILLBROOK
FALLS OF NEUSE
Run greenway along Quail Hollow stream instead
Prefer Separated bike lanes
ATLANTIC
NEW HOPE CHURCH
ST ALBANS
Bike/Ped only
How cross 440?
Flooding up back to homes outside study area. Especially near Six Forks Rd.
Upstream
Crabtree Creek Trail
CAPITAL
Downstream
Midtown Study Area
Greenway - Existing
Greenway Corridor Master Plan
Greenway Property
Buildings
Creek/Stream/Drainage
Waterbody
Floodplain - 1% Annual Chance
Property Boundary
Park/Open Space
School
0 500 1,000 2,000 Feet
1 inch = 500 feet
0 0.25 0.5 Mile

Too much traffic to cross on foot

Drainage issues

LYNN

FORKS

MILLBROOK

SPRING FOREST

Add park (existing)

FALLS OF NEUSE

LITCHFORD

PROPOSED G'WAY

ATLANTIC

Flood mitigation needed. Add park amenities

Wet Surface? Flooding

Hike/Bike Ped. Walkway

Potential Park (Duke/Rodeghiero facility)

Older Stormwater drain, getting plugged and flooding

NEW HOPE CHURCH

EXISTING G'WAY

Need access to Greenway Safely

Field change and impact on flooding?
