Planning and Development

Midtown-St. Albans Area Plan: Final Report

Planning Commission August 27, 2020

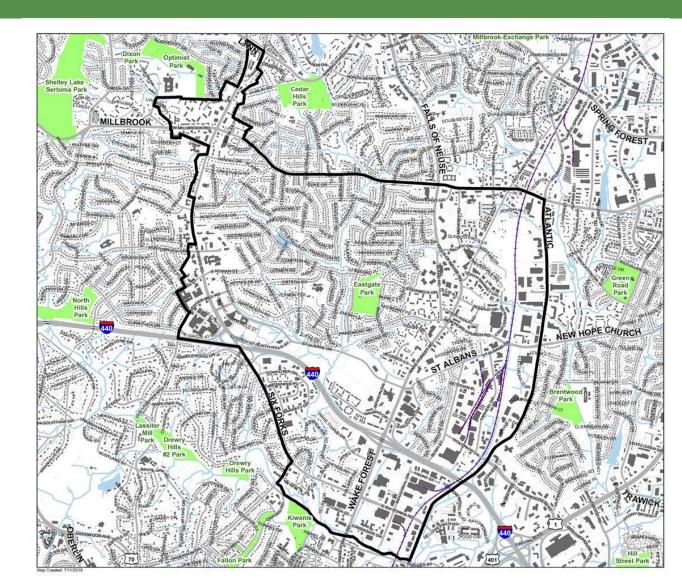

About the Plan

- Area centered on North Hills, extends south to Crabtree Creek, north to Millbrook Road
- Originated with desire to consider

infrastructure and other public improvements for an area targeted for significant growth

Plan Process

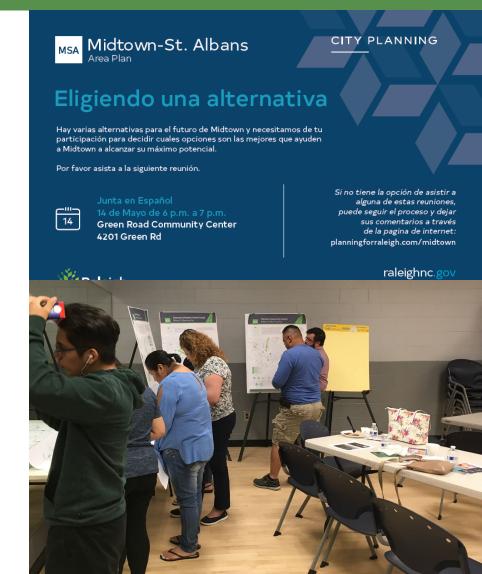

- Began in 2018 with initial visioning efforts
- Formal plan events took place in three phases in 2019
- Final report published in 2020
- Process overseen by "Confirmation Group"
- Next step is referral to Planning Commission for review and recommendation

Process Highlights

- Aimed to set a new standard for inclusiveness and ease of participation
- 10 in-person events at different days/times
- Online options throughout
- The city's first all-Spanish language
 planning meeting
- Proactive outreach with pop-up events
- Several thousand postcards sent at each phase to property owners <u>and</u> addresses in order to reach renters
- Additional outreach to employers, apartment buildings

What we heard

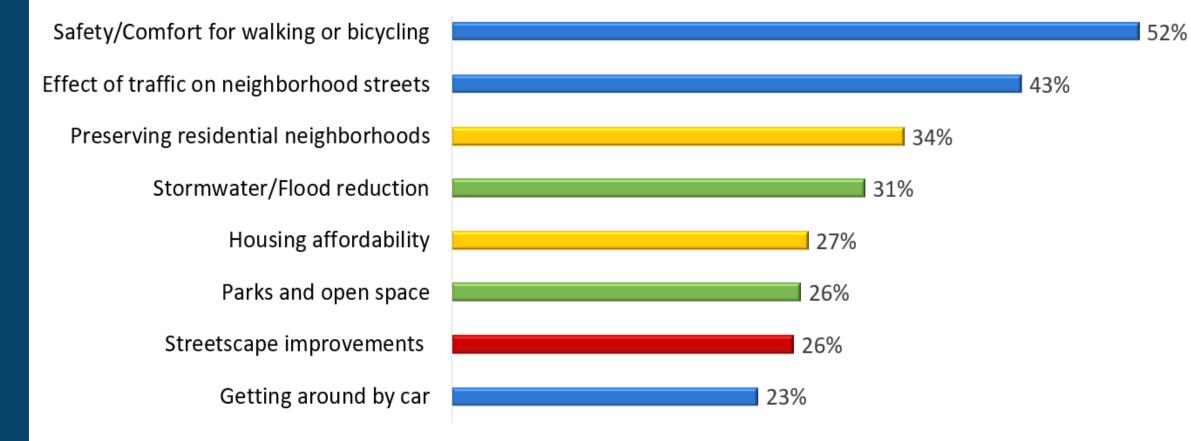

Walkability is a must

What we heard

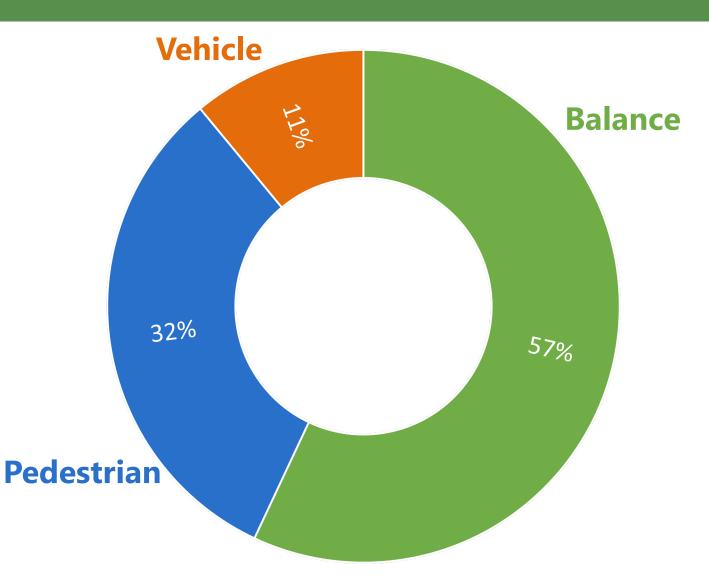

Top three issues to address

What we heard

Transportation projects involve trade-offs between vehicle traffic flow and making it safer for pedestrians. Which is a higher priority?

Key Principles

Midtown Moves: Healthy, Safe, and Reliable Transportation

Midtown Living: Residential Neighborhoods and Housing Choices

Midtown Works: Innovation and Opportunity

Aesthetics: Beautiful Midtown

Midtown Green and Blue: Parks, Trees, and Stormwater

Implementing the Principles

- Seven Big Moves
 - Overarching topics containing multiple projects/policies
 - Each connects to principles
 - Taken together, realize the vision for a more walkable, livable Midtown

Big Move 1: Crossing the Beltline

- Two new bridges
 - One critical multimodal
 - connection between Six Forks and Wake Forest
 - One bike/ped crossing connecting Midtown East with Wake Tech and points north

- Survey: Walkability the number one issue
- Both in the **top half** in results of "Midtown Bucks" prioritization exercise

Big Move 2: Green Streets

- Projects use Green Stormwater
 Infrastructure to do quadruple duty:
 - Slow traffic on wide streets
 - Beautify neighborhoods
 - Collect stormwater
 - Make walking and biking safer
- Key streets: Quail Hollow, Hardimont, Bush, Wake Towne
- Survey: 61 percent say speed is an issue on neighborhood streets
- Survey: Stormwater a top-four issue to tackle

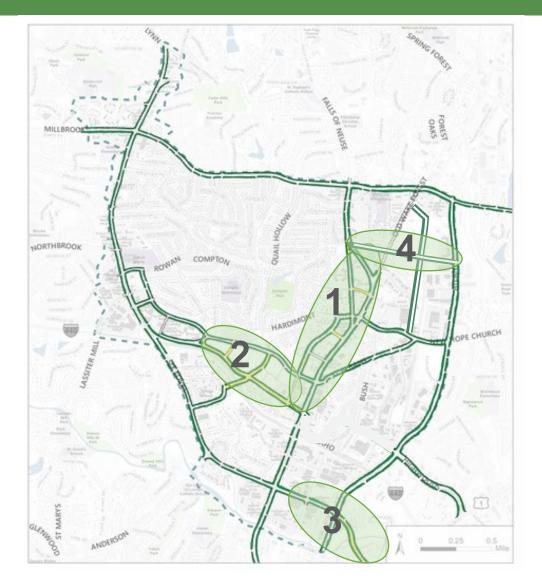

Big Move 3: Connected Streets

- Handle transportation through a grid, not widening
- Provide alternatives to busy arterials
- New streets will be friendly for people walking, not just for cars
- Key connections:
 - 1. Wake Forest parallel network
 - 2. St. Albans parallel/440 bridge
 - 3. Six Forks-Capital connector
 - 4. "Ocean connector" (Pacific-Atlantic)

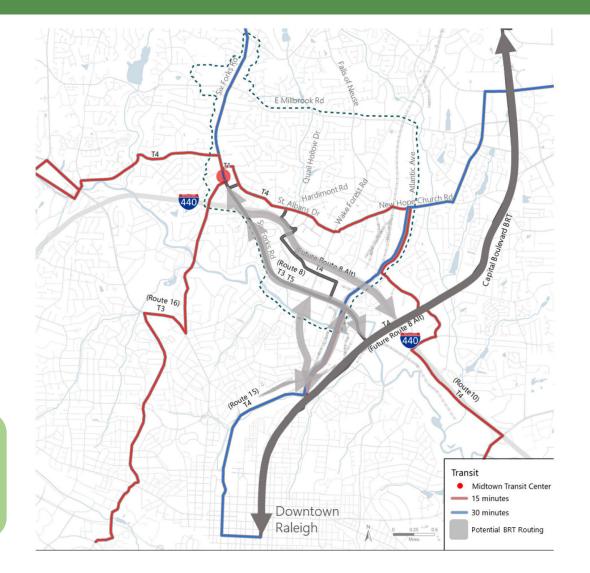

Supports multiple survey priorities (transportation options and reliability, walkability)

Big Move 4: Serious Transit

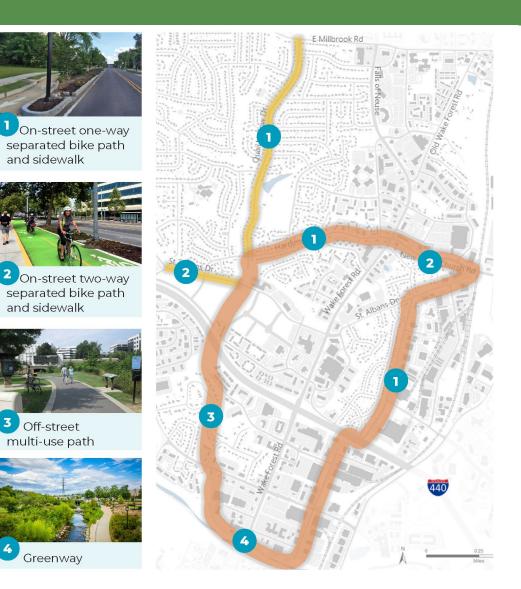

- Phase 1: Frequent Transit
 - 15-minute routes to:
 - Downtown
 - N.C. State
 - Beltline parallel route to Crabtree/WakeMed
 - Phase 2: BRT Connection
 - Study feasibility and route options
 - Survey: Transit frequency the number one factor in making transit more usable

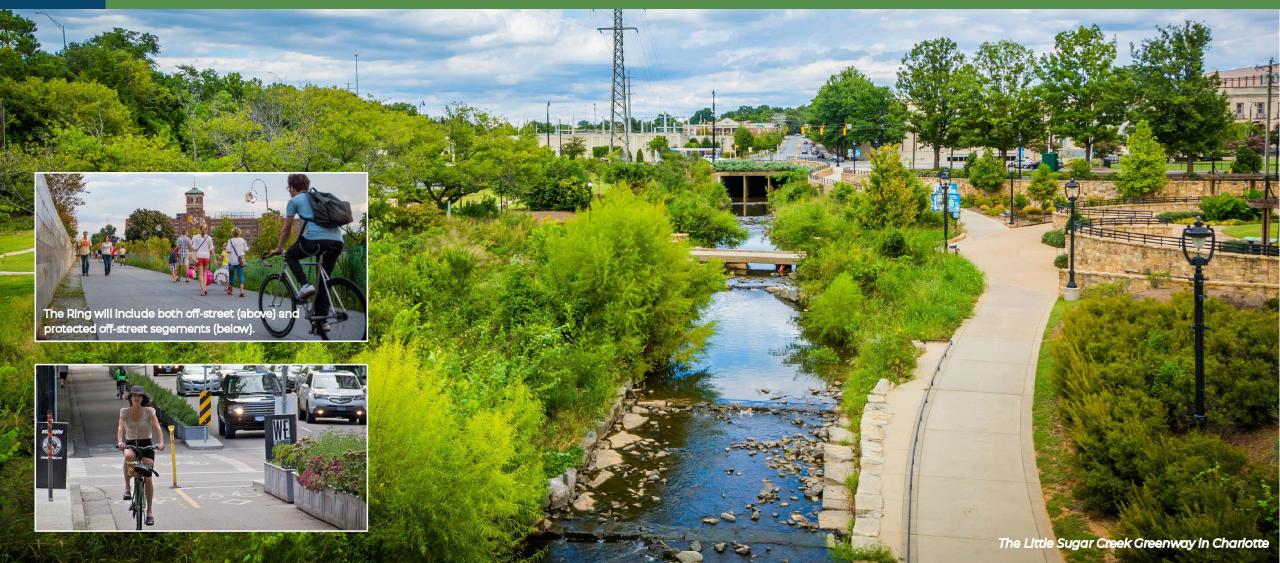

Big Move 5: The Midtown Ring

- A safe and comfortable way to connect to all destinations in Midtown
- Uses greenways, new bridges, protected bike lanes, and green streets
- Provides space for recreation, nocarbon transportation
- Survey: Only 8 percent are comfortable walking or biking – but 78 percent would walk/bike more if safe places are built
- Walkability the number 1 priority for participants

Big Move 5: The Midtown Ring

Big Move 6: Midtown Living/Midtown Works

- Land use and urban form recommendations in a few key areas. Goals include:
 - Allow housing and employment opportunities
 - Incentivize affordable
 housing
 - Ensure gentle transitions between taller mixed-use areas and lower-scale residential areas
 - Ensure buildings create a comfortable pedestrian experience

• Survey: Housing affordability a top-5 issue in upper half of priorities; only 27 percent say growth should be accommodated elsewhere

Big Move 7: Midtown Waterfront District

- Vacant/underused properties between Beltline and Crabtree Creek are seeing redevelopment interest
- Opportunity to create a first in Raleigh: an urban waterfront district
- Industrial Drive becomes the walkable "Main Street" connecting the Beltline bike/ped bridge to the Crabtree waterfront

Survey: Park space a **topthree** priority; Waterfront park **top three** in "Midtown Bucks" exercise

Big Move 7: Midtown Waterfront District

- Midtown currently turns its back on the Crabtree
- Plan envisions reversing that and creating a focal point
- A resilient waterfront park does double duty as public space and stormwater control
- Involves acquiring relatively inexpensive parcels in floodplain

Prioritization

- Process ended with prioritization exercise
- Participants used "Midtown Bucks" to "buy" their favorite projects
- Most funded:
 - Pedestrian crossing improvements
 - Waterfront park
 - Beltline multimodal bridge
 - Green streets
 - Beltline bike/ped bridge
 - Wake Forest street network
 - Affordable housing

Prioritization

- Process ended with prioritization exercise
- Participants used "Midtown Bucks" to "buy" their favorite projects
- Most funded:
 - Pedestrian crossing improvements
 - Waterfront park
 - Beltline multimodal bridge
 - Green streets
 - Beltline bike/ped bridge
 - Wake Forest street network
 - Affordable housing

Comprehensive Plan Amendments

- How plans are memorialized and ultimately implemented
- Requested action: Review and Recommendation to City Council

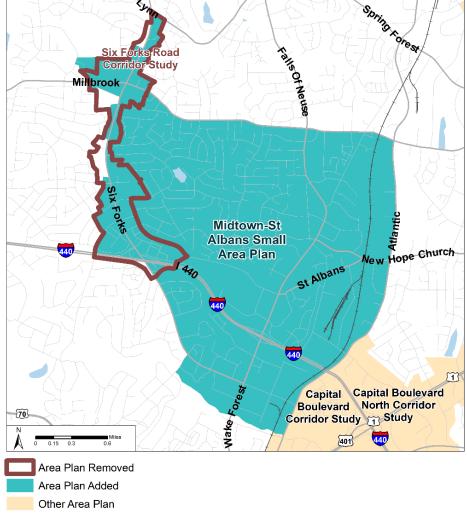

Plan Amendments: Area Plan Map

- Adding the Midtown boundary, removing the Six Forks boundary
- Six Forks is incorporated into Midtown plan

Midtown Waterfront District: Creating a mixed-use a true neighborhood, not a regional retail center

Existing: Neighborhood and Community Mixed Use

Proposed: High Density Residential (Allows ground-floor retail, Plan guidance envisions office as well)

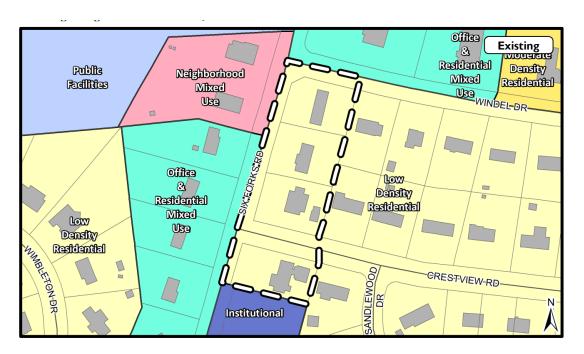

Six Forks Road: Allowing detached residential properties to transition to office uses

Existing: Low Density Residential

Proposed: Office and Residential Mixed Use

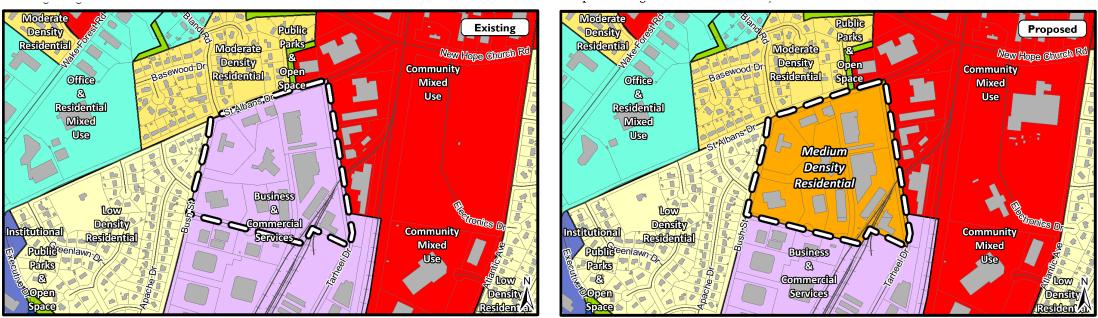

Bush and St. Albans: Allowing older warehouse/industrial/office uses to transition to mixed-use

Existing: Business and Commercial Services

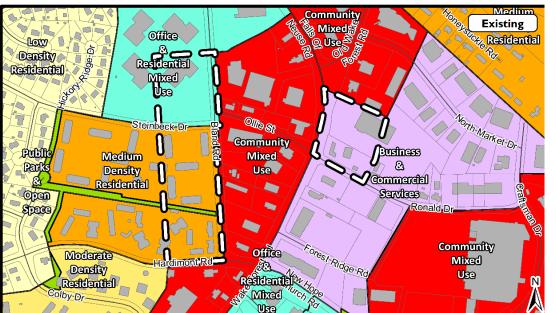

Proposed: Medium Density Residential

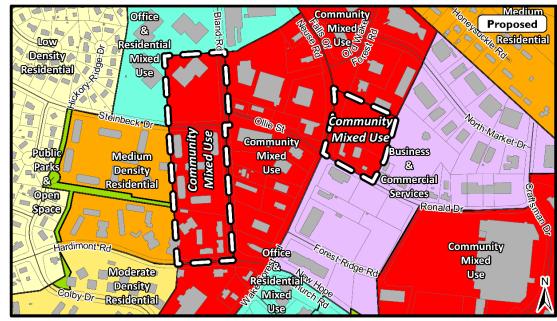

Bland Road: Creating a mixed-use main street (in conjunction with urban form changes)

Existing: Office and Residential Mixed Use, Medium Density Residential, Business and Commercial Services Proposed: Community Mixed Use

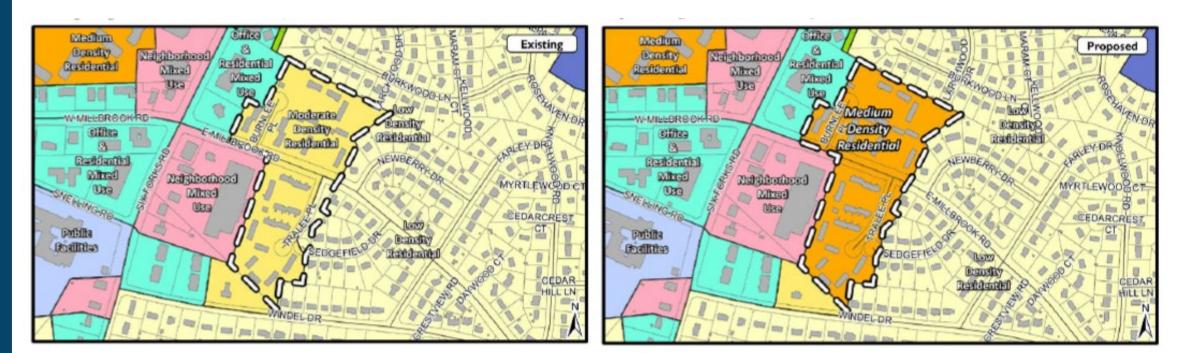

Six Forks and Millbrook: Allowing more housing near a mixed-use center

Existing: Moderate Density Residential

Proposed: Medium Density Residential

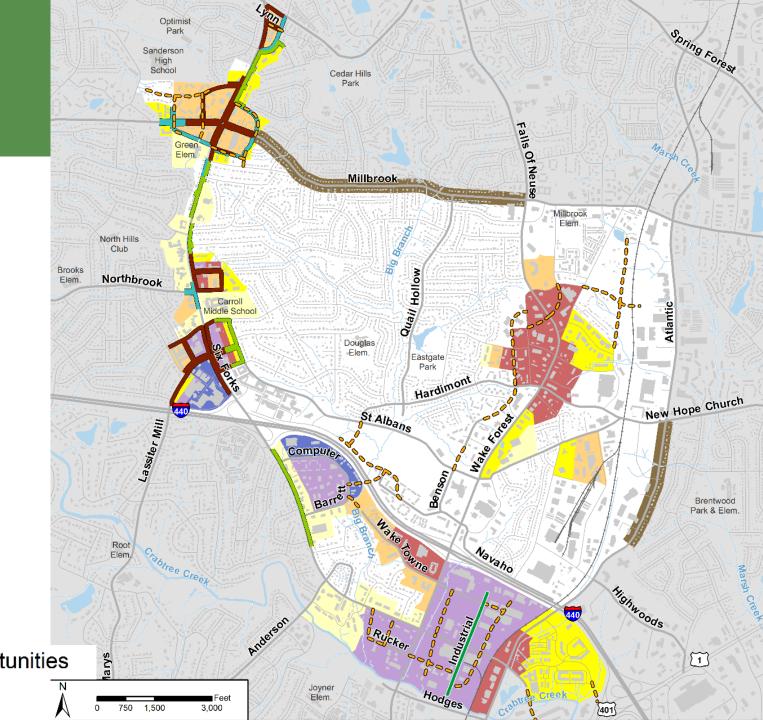

Area-Specific Guidance

Allowing height for housing and employment in the core of the area, then transitioning down to lower-scale residential

Recommended Height

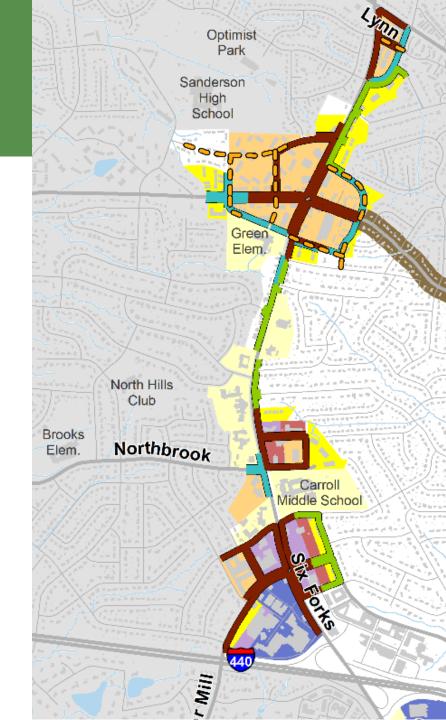

Area-Specific Guidance

Creating a walkable urban form

Recommended Zoning Frontage

- Urban Limited
- Parking Limited

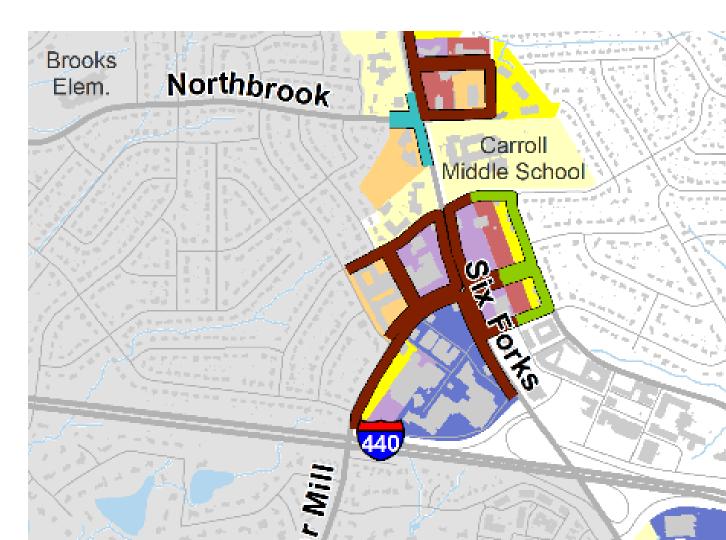

Area-Specific Guidance

Creating a walkable urban form

Recommended Zoning Frontage

- Urban Limited
- Parking Limited

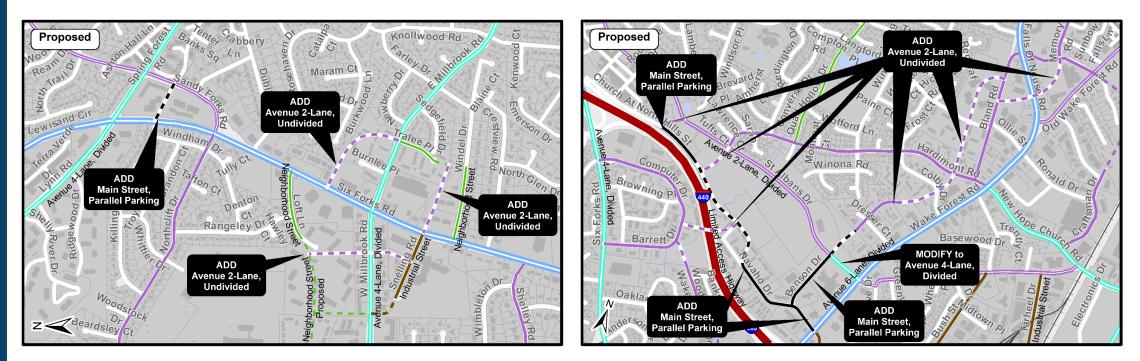

Plan Amendments: Street Plan

Six Forks/Millbrook: Building a Grid

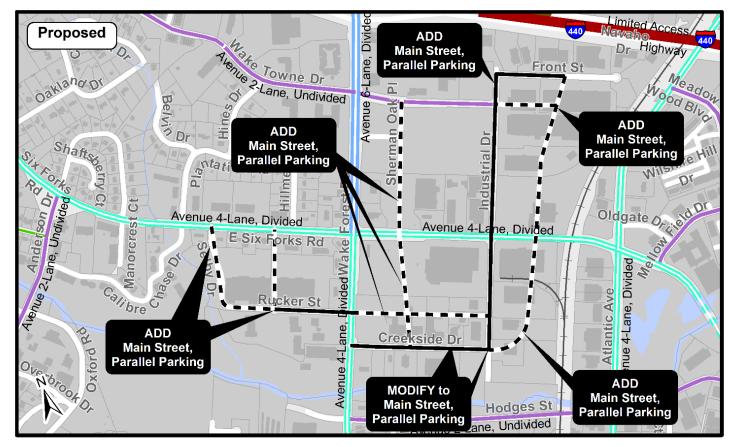

Midtown Core: Crossing 440, Creating a Wake Forest Parallel Street

Plan Amendments: Street Plan

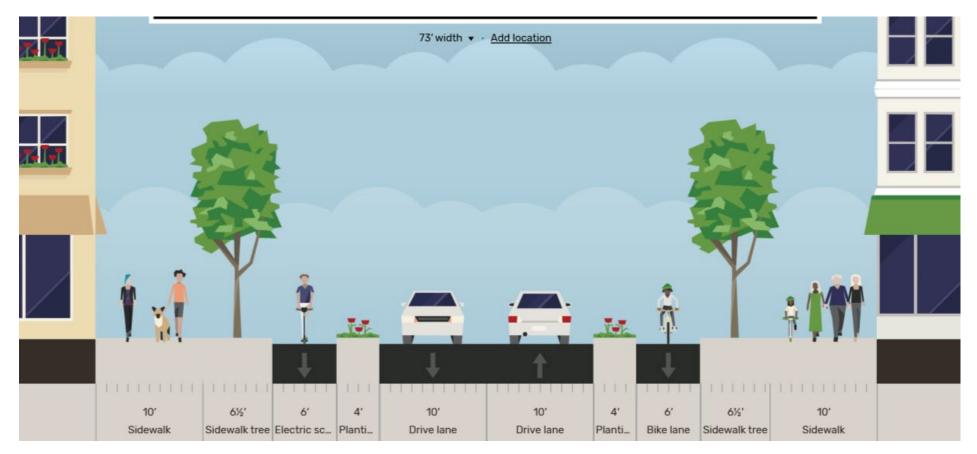

Waterfront: Creating a Walkable "Main Street" district

Plan Amendments: Street Design

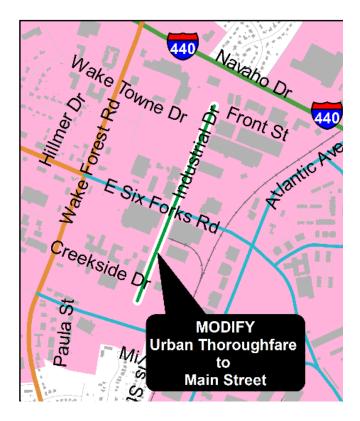

Waterfront: Industrial Drive as walkable, bikeable Main Street

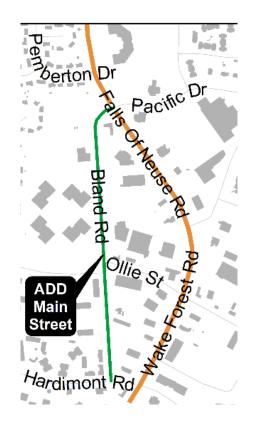

Plan Amendments: Urban Form

Waterfront: Creating a Walkable "Main Street" district

Bland Road: Creating a Main Street north of 440

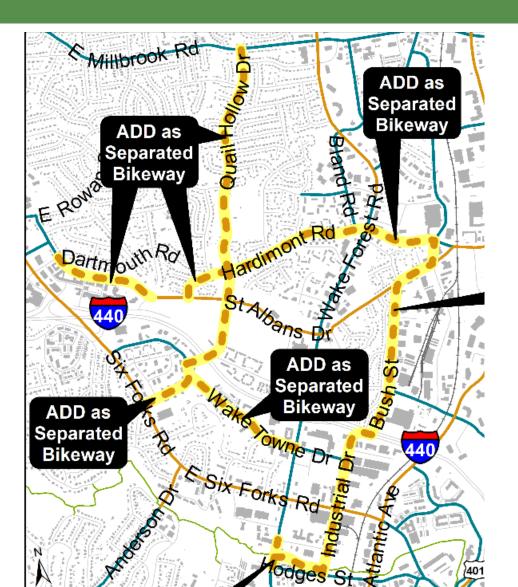

Plan Amendments: Bicycle Facilities

The Midtown Ring and connecting spurs: Creating a connected and comfortable network of separated bicycle facilities

Long Term Planned Facility

- Bicycle Lane
- Separated Bikeway

Raleigh

Comprehensive Plan Policies and Actions

- Most policies and actions capture broader goals embodied in the maps and projects:
 - Action MT 2 Green Streets
 - Policy MT 4 Connected and Walkable Streets
- Others add additional policy or actions;
 - Action MT 3 Stormwater Drainage Basin Study
 - Policy MT 6/Action MT 9 Transportation Demand Management
 - Action MT 6 Six Forks School and Connectivity Study
 - Action MT 7 Wake Forest Road Corridor Reconditioning Study
 - Policy MT 12 Midtown Height
 - Policy MT 13 Affordability
 - Action MT 14 Waterfront District Study
 - Action MT 15 Affordable Housing Development
 - Action MT 18 Crabtree Restoration

Comprehensive Plan Consistency

- Policy IM 4.1 Area Planning Studies
- Policy IM 4.2 Area Study Content and Intent
- Policy LU 4.4 Reducing Vehicle Miles Traveled Through Mixed-use
- Policy LU 8.1 Housing Variety
- Policy EP 1.1 Greenhouse Gas Reduction
- Policy H 1.8 Zoning for Housing
- Policy PR 1.7 New Parks in Growth Centers
- Policy PU 5.1 Sustainable and Resilient Stormwater Management

Comprehensive Plan: Public Input

- The right to an equal voice. Input is equally valued regardless of how it is provided, whether it is in the form of attendance at an in-person meeting, an online meeting, a survey, or other means.
- Those participating in the public input process have the responsibility to give thought to alternative perspectives and to consider the effects of decisions on the city and region as a whole and in the long term.

Planning Commission Role

- Make recommendation to City Council
- Can make recommendation on amendments as proposed or recommend changes
- Staff will provide additional information on public input or other topics as needed

Q&A/Discussion
