

MINOR WORK LIST

Notes:

1. The current COA list is part of RHDC's Rules of Procedure and includes Minor Work and Major Work items.
2. The UDO will only list Minor Work items. After adoption of the text change (TC-3-24) raleighnc.gov/planning/services/certificate-appropriateness-coa will include guidance, including what is typically classified as a Major Work
3. Deleted and added text are noted using ~~strikethrough~~ and underline.
4. Comments are included below for items that are not included in the new Minor Work List and/or included in other sections of the UDO.
5. For additional commentary please see the new Minor Work List.

ARTICLE XV — CERTIFICATE OF APPROPRIATENESS LIST

The following list is provided as a general outline of the level of review that may be expected for various types of projects that are often undertaken. It is not intended to be comprehensive, and cannot cover every circumstance that will be encountered in a project. The assignment of work to a review category is a guideline and staff may assign a given project a higher level of review.

A Certificate of Appropriateness is not necessary for Routine Maintenance, which includes repair or replacement where there is no change in the design, materials, or general appearance of elements of the structure or grounds. Certificates of Appropriateness are issued for all other projects. Any repair or replacement where there is a change in the design, materials, or general appearance is defined as an alteration and needs a Certificate of Appropriateness.

Minor Work projects are reviewed by the staff. Staff will refer Minor Work projects to the COA Committee for review if in staff's judgment the change involves alterations, additions, or removals that are substantial, do not meet the guidelines standards, or are of a precedent-setting nature.

Major Work projects are reviewed by the Commission's COA Committee. In general, major work projects involve a change in the appearance of a structure or site, and are more substantial in nature than routine maintenance or minor work projects, such as new construction, expansion of a building footprint, or significant changes in landscape features.
