Date: June 6, 2018

Re: City Council agenda item for July 3, 2018 – Rezoning Public Hearing for Z-5-18

The City Council has authorized the following case for public hearing at its meeting the evening of Tuesday, July 3, 2018:

**Z-5-18 Hillsborough Street and Turner Street**, southeast of the Hillsborough Street and Gorman Street intersection, being Wake County PIN(S) 0794338236, 0794338360, 0794338395, 0794338424, 0794339442, and 0794339499. Approx. 1.72 acres are requested by the property owners to be rezoned from Neighborhood Mixed Use-3 stories-Urban Limited with Special Residential Parking Overlay District (NX-3-UL w/ SRPOD) and Neighborhood Mixed Use-3 Stories with Special Residential Parking Overlay District (NX-3 w/ SRPOD) to Neighborhood Mixed Use-5 stories-Urban Limited-Conditional Use with Special Residential Parking Overlay District (NX-5-UL-CU w/ SRPOD). Proposed conditions limit the maximum number of bedrooms per unit, specify permitted and prohibited façade materials, prohibit the rental of individual rooms within a dwelling unit, limit the size of retail sales, personal services, and eating establishments, and limit height to three stories and 50 feet south of the existing overhead power line easement.

The Planning Commission recommends approval in a vote of 7 to 0.

The Wade CAC voted in favor of the request in a vote of 17 to 2

Attached are the Planning Commission Certified Recommendation (including Staff Report and Traffic Study Worksheet), the Petition for Rezoning, the Zoning Conditions, and the Neighborhood Meeting Report.
Original Signed Conditions Submitted June 1, 2018
The maximum number of bedrooms for any dwelling unit shall be three (3).

The facades of the building shall be constructed from one or more of the following materials: glass, concrete, clay or brick masonry, stone masonry, stucco, cementitious siding, native and manufactured stone, and pre-cast concrete.

Synthetic stucco (EIFS) and vinyl shall be prohibited as building siding materials.

No bedroom shall be rented separately from the other rooms within the same dwelling unit.

Building height on that portion of the property located south of the 50-feet wide CP&L transmission line easement shall be limited to three stories and fifty (50) feet. Also, no building constructed on the south side of the 50-feet wide CP&L transmission line easement shall be attached to a building taller than three (3) stories and fifty (50) feet in height.

"Retail Sales", "Personal Service" and "Eating Establishment" uses shall be limited to a total of 60,000 square feet gross floor area.
### Narrative Of Zoning Conditions Offered

1. The maximum number of bedrooms for any dwelling unit shall be three (3).

2. The facades of the building shall be constructed from one or more of the following materials: glass, concrete, clay or brick masonry, stone masonry, stucco, cementitious siding, native and manufactured stone, and pre-cast concrete.

3. Synthetic stucco (EIFS) and vinyl shall be prohibited as building siding materials.

4. No bedroom shall be rented separately from the other rooms within the same dwelling unit.

5. Building height on that portion of the property located south of the 50-feet wide CP&L transmission line easement shall be limited to three stories and fifty (50) feet. Also, no building constructed on the south side of the 50-feet wide CP&L transmission line easement shall be attached to a building taller than three (3) stories and fifty (50) feet in height.

6. "Retail Sales", "Personal Service" and "Eating Establishment" uses shall be limited to a total of 60,000 square feet gross floor area.

These zoning conditions have been voluntarily offered by the property owner. All property owners must sign each condition page. This page may be photocopied if additional space is needed.

PLANNING COMMISSION RECOMMENDATION
[Select one of the following and fill in details specific to the case.]

☑ The rezoning case is **Consistent** with the relevant policies in the Comprehensive Plan, and **Approval** of the rezoning request is reasonable and in the public interest.

☐ The rezoning case is **Consistent** with the relevant policies in the comprehensive Plan, but **Denial** of the rezoning request is reasonable and in the public interest.

☐ The rezoning is **Inconsistent** with the relevant policies in the Comprehensive Plan, and **Denial** of the rezoning request is reasonable and in the public interest.

☐ The rezoning case is **Inconsistent** with the relevant policies in the Comprehensive Plan, but **Approval** of the rezoning request is reasonable and in the public interest due to changed circumstances as explained below. Approval of the rezoning request constitutes an amendment to the Comprehensive Plan to the extent described below.

| Reasonableness and Public Interest | The request is consistent with the Comprehensive Plan, the Future Land Use Map, and the Cameron Village and Hillsborough Street Area Plan, and helps to realize the City’s vision of the Hillsborough Street corridor. |
| Change(s) in Circumstances [if applicable] | N/A |
| Amendments to the Comprehensive Plan [if applicable] | N/A |
| **Recommendation** | Approval |
| **Motion and Vote** | Motion: Eddie Jeffreys; Second: Novak; In Favor: Braun, Geary, Hicks, Jeffreys, Novak, Swink, and Tomasulo. |

**ATTACHMENTS**

1. Staff report

This document is a true and accurate statement of the findings and recommendations of the Planning Commission. Approval of this document incorporates all of the findings of the attached Staff Report and Comprehensive Plan Amendment Analysis.

_________________________  5/22/2018  ___________________________  5/22/2018
Planning Director          Date         Chairperson Eric Braun       Date

Staff Coordinator: Matthew Klem: (919) 996-4637; Matthew.Klem@raleighnc.gov
OVERVIEW

The proposal seeks to rezone six properties totaling 1.72 acres from Neighborhood Mixed Use-3 stories-Urban Limited with Special Residential Parking Overlay District (NX-3-UL w/SRPOD) and Neighborhood Mixed Use-3 Stories with Special Residential Parking Overlay District (NX-3 w/SRPOD) to Neighborhood Mixed Use-5 stories-Urban Limited-Conditional Use with Special Residential Parking Overlay District (NX-5-UL-CU w/SRPOD).

Proposed conditions limit the maximum number of bedrooms per unit, specify permitted and prohibited façade materials, prohibit the rental of individual rooms within a dwelling unit, limit the combined size of retail sales, personal services, and eating establishments, and provides for a height transition as prescribed in the Cameron Village and Hillsborough Street area plan.

The subject site is located southeast of the Hillsborough Street and Gorman Street intersection and is currently developed with a mix of attached and detached homes, a vacant gas station, and a vacant parcel. The site is also encumbered by a 50-foot-wide overhead powerline easement that traverses its southern end. East of the subject site is a Duke Energy Progress electrical substation. South of the subject site are three parcels with a mix of attached and detached homes. West of the subject site is a fast food restaurant and a vacant parcel.

The area is more generally characterized by a mix of commercial, light industrial, and residential uses at the intersection of two major streets, Gorman Street and Hillsborough Street, with close access to Meredith College and North Carolina State University.

The subject site is zoned Neighborhood Mixed Use-3 stories-Urban Limited (NX-3-UL) and Neighborhood Mixed Use-3 Stories (NX-3). The properties to the west and south are zoned NX-3-UL and NX-3, respectively. The property to the east, across Turner Street, is zoned Industrial Mixed Use-3 stories-Green (IX-3-GR). The properties to the north, across Hillsborough Street, are zoned Office Mixed Use-3 stories-Urban General (OX-3-UG).

The Future Land Use Map (FLUM) designates the subject site as Community Mixed Use, along with the properties to the west and south. The property to the east, across Turner Street, is designated as General Industrial on the FLUM. The properties to the north, across Hillsborough Street, are designated as Neighborhood Mixed Use on the FLUM.

The Urban Form Map locates the subject site within a Mixed-Use Center, along a Transit Emphasis Corridor, and within a half-mile of a future fixed guideway transit stop.
**Overview Continued**

The subject site is located within the boundaries of the Cameron Village and Hillsborough Street Small Area Plans which provides height guidance for 5 stories on the site. The Small Area Plans also provides guidance for a transition in height when four story mixed use development occurs next to existing one and two story residential uses.

**Outstanding Issues**

<table>
<thead>
<tr>
<th>Outstanding Issues</th>
<th>N/A</th>
<th>Suggested Mitigation</th>
<th>N/A</th>
</tr>
</thead>
</table>

**Comprehensive Plan**

Determination of the conformance of a proposed use or zone with the Comprehensive Plan includes consideration of the following questions:

A. Is the proposal consistent with the vision, themes, and policies contained in the Comprehensive Plan?

   The request is consistent with the Expanding Housing Choices vision theme which supports increasing the supply of housing in the city. The request will nearly double the residential entitlement on the subject site.

   The request is consistent with the Coordinating Land Use and Transportation vision theme. The request will increase land use intensity in an area with good access to existing and planned transit services.

B. Is the use being considered specifically designated on the Future Land Use Map in the area where its location is proposed?

   The use being considered in this request is consistent with the recommendations of the Future Land Use Map. The subject site is designated as Community Mixed Use which envisions mid-rise buildings with ground level retail. The request is for Neighborhood Mixed Use which would accommodate this vision.

C. If the use is not specifically designated on the Future Land Use Map in the area where its location is proposed, is it needed to service such a planned use, or could it be established without adversely altering the recommended land use and character of the area?

   N/A

D. Will community facilities and streets be available at City standards to serve the use proposed for the property?

   Community facilities and streets are available to serve the proposed use.
**Future Land Use**

Future Land Use designation:

The rezoning request is:

☑ Consistent with the Future Land Use Map (FLUM).

☐ Inconsistent

The Future Land Use designation on the subject site is Community Mixed Use. This category applies to medium-sized shopping centers and larger pedestrian-oriented retail districts such as Cameron Village. Where residential development occurs, ground floor retail would be encouraged and minimum building heights might be applied in transit-rich areas. Heights would generally be in the three to five story range. For both this category and Neighborhood Mixed Use, greater height should include appropriate transitions and be accompanied by a pedestrian-friendly relationship to the public realm.

The rezoning request maintains the existing base district of Neighborhood Mixed Use which is consistent with the recommendations of the FLUM, albeit less intense. The requested height of five stories is consistent with the recommendations of Table LU-2 Recommended Height Designations, which encourages a range of two to twelve in areas considered Core/Transit and a maximum of five stories in General areas.

**Urban Form**

Urban Form designation:

The rezoning request is:

☐ Not applicable (no Urban Form designation)

☑ Consistent with the Urban Form Map.

☐ Inconsistent

The Urban Form Map identifies the subject site within a Mixed-Use Center of approximately 100 acres in size and along a Transit Emphasis Corridor. The Mixed-Use Center designation encourages a more walkable and mixed-use development pattern and the Transit Emphasis Corridor designation recommends a hybrid approach to frontage. The proposed and existing frontage is Urban Limited, which is an urban frontage. While a hybrid frontage (Parking Limited) may be more consistent with the policy recommendation, the Urban Limited frontage is more consistent with the context of the site. Both frontage types encourage walkable and mixed-use development.
**Compatibility**

The proposed rezoning is:

☑ Compatible with the property and surrounding area.

☐ Incompatible.

The request is compatible with the property and the surrounding area. The subject site is currently developed with a mix of attached and detached homes, a gas station, and a vacant parcel. It is adjacent to an electrical substation, a mix of attached and detached homes, and a drive through fast food restaurant. The request would increase the permitted height from three to five stories. While there are existing single story detached and attached homes in the immediate area, proposed conditions provide for appropriate transitions in height.

**Public Benefits of the Proposed Rezoning**

- Increasing the supply and variety of housing in the city will naturally moderate the costs of owning and renting.

- Increasing land use intensity near the planned Bus Rapid Transit route and Commuter Rail corridor will take advantage of the region's investment in transit infrastructure.

- Proposed conditions that provide height transitions consistent with adopted policy is beyond what the UDO requires and will help to mitigate development impacts on adjacent properties.

**Detriments of the Proposed Rezoning**

- None
**Policy Guidance**

The rezoning request is **consistent** with the following policies:

**Policy LU 1.2 Future Land Use Map and Zoning Consistency**
The Future Land Use Map (FLUM) shall be used in conjunction with the Comprehensive Plan policies to evaluate zoning consistency including proposed zoning map amendments and zoning text changes.

The future land use designation on the subject site is Community Mixed Use. The rezoning request maintains the existing base district of Neighborhood Mixed Use which is consistent with the recommendations of the FLUM, albeit less intense.

**Policy LU 1.3 Conditional Use District Consistency**
All conditions proposed as part of a conditional use district should be consistent with the Comprehensive Plan.

The conditions proposed with the rezoning request are consistent with the Plan.

**Policy LU 2.6 Zoning and Infrastructure Impacts**
Carefully evaluate all amendments to the zoning map that significantly increase permitted density or floor area to ensure that impacts to infrastructure capacity resulting from the projected intensification of development are adequately mitigated or addressed.

Existing infrastructure is sufficient to serve the requested increase in zoning entitlement.

**Policy LU 4.7 Capitalizing on Transit Access**
Sites within a half-mile of planned and proposed fixed guideway transit stations should be developed with intense residential and mixed-uses to take full advantage of and support the City and region’s investment in transit infrastructure.

The subject site is located on a Transit Emphasis Corridor as identified on the Urban Form Map and is within a half-mile of a proposed fixed-guideway transit station.

**Policy LU 5.6 Buffering Requirements**
New development adjacent to areas of lower intensity should provide effective physical buffers to avoid adverse effects. Buffers may include larger setbacks, landscaped or forested strips, transition zones, fencing, screening, height and/or density step downs, and other architectural and site planning measures that avoid potential conflicts.

Proposed conditions provide for a height transition between development on the subject site and adjacent detached and attached housing.
Policy UD 1.10 Frontage
Coordinate frontage across multiple sites to create cohesive places. Encourage consistency with the designations on the Urban Form Map. Development in centers and along corridors targeted for public investment in transit and walkability should use a compatible urban form.

The request designates the subject site with an Urban Limited frontage which is consistent with the context of the Hillsborough Street.

Area Plan Policy Guidance

Policy AP-CH 6 Guide Future Zoning
Rezoning petitions should be evaluated for consistency with the policy guidance and recommendations of the area plan, as well as Map AP-CH 1.

Map AP-CH 1 recommends Community Mixed Use-5 stories (CX-5) on the subject site. The request is for Neighborhood Mixed Use-5 stories-Conditional Use w/Special Residential Parking Overlay District (NX-5-CU w/ SRPOD) and is consistent with this policy.

Policy AP-CH 12 Use-based Transition
Where a new mixed-use development of any building type taller than three stories is constructed next to residential use of no more than two stories, the taller development shall include:

1. A fifteen-foot building setback from the shared property line with the residential use, and
2. A maximum height of three stories and 50’ within 50’ of the shared property line with the residential use.

Proposed conditions limit building height to three stories and 50 feet on the portions of the subject site that are adjacent to existing detached homes. This condition is consistent with the use based transition policy.
Impact Analysis

Transportation

1. The Z-5-2018 site is located in the southwest quadrant of Hillsborough Street and Turner Street. Hillsborough Street (SR 3007) is maintained by the NCDOT and currently has one eastbound lane, two westbound lanes and a two-way left turn lane. Curbs and sidewalks are in place along both sides of Hillsborough Street. Hillsborough is classified as a mixed-use street in the Raleigh Street Plan (Avenue, 3-Lane, Parallel Parking). Turner Street is maintained by the City and has curbing on both sides, but lacks sidewalks. Development of the Z-5-2018 parcels will require sidewalk construction along the site frontage. Progress Energy operates a large substation on the east side of Turner Street.

2. There are no NCDOT projects in the immediate vicinity of the Z-5-2018 site. The Hillsborough Street Renewal Project, currently under construction, terminates at Shepard Street, approximately 1/4 mile east of the Z-5-2018 parcels. The Gorman Street Connector project is located 0.1 miles west of the Z-5-2018 parcels. Hillsborough Street between Shepard Street and Gorman Street is designated for a separated bikeway in the Raleigh Long Term Bikeway Plan, but there is no timetable for construction. No bicycle facilities are planned for Turner Street. Hillsborough Street is currently served by GoRaleigh route 12 (Method); buses run every half hour during peak periods. The nearest bus stops are located 150 feet east of Turner Street. The Wake Transit Plan calls for frequent service on Hillsborough.

3. Offers of cross access to adjacent parcels shall be made in accordance with the Raleigh UDO section 8.3.5.D. The Z-5-2018 site is bounded by residential lots on the south and by a fast food restaurant on the west. There are no public street stubs abutting any of the Z-5-2018 parcels.

4. Site access can be provided via Hillsborough Street and Turner Street.

5. In accordance with UDO section 8.3.2, the maximum block perimeter for NX-5 zoning is 2,500 feet. The block perimeter for Z-5-2018, as defined by public rights-of-way for Gorman Street, Turner Street and Hillsborough Street is 1,925 feet. The extension of Gorman Street in the 1980’s provided a grade-separated passage over the railroad tracks but it also severed Turner Street from Neil Street. There is not currently any connection between Gorman and Turner Street.
Transportation continued

6. The existing land is occupied by six residential housing units and generates very little traffic. The Z-5-2018 case will allow a maximum of 60,000 sq. ft of retail use. Under this condition, average peak hour trip volumes would increase by 119 veh/hr in the AM peak and by 96 veh/hr in the PM peak. Daily trips are anticipated to increase by approximately 1,260 veh/hr. A traffic study is not required for case Z-5-2018.

Transit

1. This section of Hillsborough St is currently served by GoRaleigh, GoTriangle and Wolfline.
2. The nearest stop is approximately 100 feet from the subject site.
3. The site is subject to Raleigh UDO sections 8.2.7 and 8.11

Impact Identified: None

Hydrology

</tr>
<tr>
<td><strong>Waste Water</strong></td>
<td>2,500 gpd</td>
<td>108,926 gpd</td>
<td>239,123 gpd</td>
</tr>
</tbody>
</table>

**Impact Identified:**

1. The proposed rezoning would add approximately 236,623 gpd to the wastewater collection and water distribution systems of the City.
2. There are existing sanitary sewer and water mains adjacent to the proposed rezoning area.
3. At the time of development plan submittal, a Downstream Sewer Capacity Study may be required to determine adequate capacity to support the proposed development. Any improvements identified by the study would be required to be permitted prior to the issuance of Building Permit & constructed prior to release of a Certificate of Occupancy.
4. Verification of water available for fire flow is required as part of the Building Permit process. Any water system improvements recommended by the analysis to meet fire flow requirements will also be required of the Developer.

**Impact Identified: None.**

### Parks and Recreation

1. Nearest greenway trail access is provided by the Rocky Branch Trail, approximately 0.15 miles away.
2. Nearest park access is provided by Six Oaks and Pollack Open Space Parks (0.25 miles), Method Road Park (0.75 miles), and Raleigh Rose Garden and Raleigh Little Theater (1.0 mile),
3. Current park access level of service is above average
4. This area is not considered a high priority for land acquisition

**Impact Identified: None**
**Urban Forestry**

All parcels are less than 2 acres in size. Collectively the parcels are less than 2 acres in size. Tree conservation regulations do not apply.

**Impact Identified:** None.

**Designated Historic Resources**

The site is adjacent to the West Raleigh Historic District, a National Register Historic District. There is no Raleigh Historic Overlay District. The subject site does not include nor is adjacent to any National Register individually-listed properties or Raleigh Historic Landmarks.

**Impact Identified:** None

**Impacts Summary**

The impacts of the proposed conditional use zoning district are minimal as the area is already well developed with a mix of commercial and residential uses and is served with sufficient infrastructure to handle the requested increase in entitlement.

**Mitigation of Impacts**

Staff has not identified any mitigation measures necessary at this stage. At the time of development plan submittal, a Downstream Sewer Capacity Study and fire flow verification may be required.

**Conclusion**

The proposed conditional use district is compatible with the surrounding properties and can be developed at the requested zoning entitlement without negatively impacting the character of the area. The request is consistent with the Future Land Use Map, the Comprehensive Plan, and the Cameron Village and Hillsborough Street area plans. The request will also increase development intensity in an area where a walkable and mixed-use development pattern is desirable.

REZONING APPLICATION ADDENDUM #1

Comprehensive Plan Analysis

The applicant is asked to analyze the impact of the rezoning request. State Statutes require that the rezoning either be consistent with the adopted Comprehensive Plan, or that the request be reasonable and in the public interest.

OFFICE USE ONLY

Transaction # 536475
Rezoning Case #

STATEMENT OF CONSISTENCY

Provide brief statements regarding whether the rezoning request is consistent with the future land use designation, the urban form map, and any applicable policies contained within the 2030 Comprehensive Plan.

1. The property is designated Community Mixed Use on the FLUM, which applies to residential and mixed-use projects with upper story housing in pedestrian-oriented districts. The proposed rezoning retains its current NX zoning designation, which is consistent with the spirit of the FLUM. Table LU-2 recommends up to 12 stories for Core properties and 4 stories for Edge properties. The proposed rezoning, including the height limitation adjacent to single-story structures, is consistent with those guidelines.

2. The proposed rezoning to permit up to five (5) stories in height is consistent with Policy AP-CVH 6 "Guide Future Zoning" and Map AP-CVH 1 "Zoning Policy Guidance," which designates the property as appropriate for up to five (5) stories in height.

3. This property is within the Core/Transit area of a mixed-use center, along a Transit Emphasis Corridor, and within a quarter-mile transit buffer as shown on the Urban Form Map. The Urban Limited frontage is consistent with the Urban Form Map guidance.

4. The proposed rezoning is consistent with the following Comp Plan policies: LU 1.2, Future Land Use Map and Zoning Consistency; LU 1.3, Conditional Use District Consistency; LU 2.1, Placemaking; LU 2.2, Compact Development; LU 2.5, Healthy Communities; LU 4.4, Reducing VMT Through Mixed Use; LU 4.7, Capitalizing on Transit Access; LU 5.2, Managing Commercial Development Impacts; LU 6.1 Composition of Mixed-Use Centers; LU 6.3, Mixed-Use and Multi-Modal Transportation; LU 7.6, Pedestrian-Friendly Development; LU 8.1, Housing Variety; and 8.11 Development of Vacant Sites.

PUBLIC BENEFITS

Provide brief statements regarding the public benefits derived as a result of the rezoning request.

1. The proposed rezoning benefits the public by permitting a mix of uses in close proximity to residential areas.

2. The proposed rezoning facilitates more housing options along Hillsborough Street, which is well-served by bus transit and within walking distance to goods and services.

3. The proposed rezoning will add diverse building and housing types along Hillsborough Street, which is encouraged by the Cameron Village & Hillsborough Street Small Area Plan.

4.
### REZONING APPLICATION ADDENDUM #2

#### Impact on Historic Resources

The applicant is asked to analyze the impact of the rezoning request on historic resources. For the purposes of this section, a historic resource is defined as any site, structure, sign, or other feature of the property to be rezoned that is listed in the National Register of Historic Places or designated by the City of Raleigh as a landmark or contributing to a Historic Overlay District.

#### INVENTORY OF HISTORIC RESOURCES

List in the space below all historic resources located on the property to be rezoned. For each resource, indicate how the proposed zoning would impact the resource.

There are no known historic resources located on this property.

#### PROPOSED MITIGATION

Provide brief statements describing actions that will be taken to mitigate all negative impacts listed above.

Not applicable.
URBAN DESIGN GUIDELINES

The applicant must respond to the Urban Design Guidelines contained in the 2030 Comprehensive Plan if:
a) The property to be rezoned is within a "City Growth Center" or "Mixed-Use Center", or
b) The property to be rezoned is located along a "Main Street" or "Transit Emphasis Corridor"
as shown on the Urban Form Map in the 2030 Comprehensive Plan.

Urban Form Designation: Mixed Use Center

Click here to view the Urban Form Map.

1. All Mixed-Use developments should generally provide retail (such as eating establishments, food stores, and banks), and other such uses as office and residential within walking distance of each other. Mixed uses should be arranged in a compact and pedestrian friendly form.
   **Response:**
   The proposed zoning permits retail, office and residential uses, consistent with this guideline. Also, the property is within walking distance to a mix of uses.

2. Within all Mixed-Use Areas buildings that are adjacent to lower density neighborhoods should transition (height, design, distance and/or landscaping) to the lower heights or be comparable in height and massing.
   **Response:**
   The property is surrounded to the west and south by property zoned NX, and is bordered to the east by a public street and property zoned IX. Across Hillsborough Street is property zoned OX-3. The closest parcels zoned for lower density residential uses are located across Hillsborough Street, approximately 250 feet from the property. Based on this, this guideline is not applicable.

3. A mixed use area's road network should connect directly into the neighborhood road network of the surrounding community, providing multiple paths for movement to and through the mixed use area. In this way, trips made from the surrounding residential neighborhood(s) to the mixed use area should be possible without requiring travel along a major thoroughfare or arterial.
   **Response:**
   The property has access to Turner Street, which connects the neighborhood to Hillsborough Street, consistent with this guideline.

4. Streets should interconnect within a development and with adjoining development. Cul-de-sacs or dead-end streets are generally discouraged except where topographic conditions and/or exterior lot line configurations offer no practical alternatives for connection or through traffic. Street stubs should be provided with development adjacent to open land to provide for future connections. Streets should be planned with due regard to the designated corridors shown on the Thoroughfare Plan.
   **Response:**
   No new streets are contemplated as part of this development.

5. New development should be comprised of blocks of public and/or private streets (including sidewalks). Block faces should have a length generally not exceeding 650 feet. Where commercial driveways are used to create block structure, they should include the same pedestrian amenities as public or private streets.
   **Response:**
   No new streets or intersections are contemplated as part of this development.
6. A primary task of all urban architecture and landscape design is the physical definition of streets and public spaces as places of shared use. Streets should be lined by buildings rather than parking lots and should provide interest especially for pedestrians. Garage entrances and/or loading areas should be located at the side or rear of a property.  
Response:  
The Urban Limited frontage ensures that development of the property will be consistent with this guideline.

7. Buildings should be located close to the pedestrian-oriented street (within 25 feet of the curb), with off-street parking behind and/or beside the buildings. When a development plan is located along a high volume corridor without on-street parking, one bay of parking separating the building frontage along the corridor is a preferred option.  
Response:  
The Urban Limited frontage ensures that development of the property will be consistent with this guideline.

8. If the site is located at a street intersection, the main building or main part of the building should be placed at the corner. Parking, loading or service should not be located at an intersection.  
Response:  
The Urban Limited frontage ensures that development of the property will be consistent with this guideline.

9. To ensure that urban open space is well-used, it is essential to locate and design it carefully. The space should be located where it is visible and easily accessible from public areas (building entrances, sidewalks). Take views and sun exposure into account as well.  
Response:  
Outdoor amenity areas will be provided consistent with the UDO.

10. New urban spaces should contain direct access from the adjacent streets. They should be open along the adjacent sidewalks and allow for multiple points of entry. They should also be visually permeable from the sidewalk, allowing passersby to see directly into the space.  
Response:  
Outdoor amenity areas will be provided consistent with the UDO.

11. The perimeter of urban open spaces should consist of active uses that provide pedestrian traffic for the space including retail, cafés, and restaurants and higher-density residential.  
Response:  
Sidewalks and outdoor amenity areas will be provided consistent with the UDO, consistent with this guideline.

12. A properly defined urban open space is visually enclosed by the fronting of buildings to create an outdoor "room" that is comfortable to users.  
Response:  
The Urban Limited frontage will enable the building frontage to define outdoor amenity area along the street.
13. New public spaces should provide seating opportunities.
   **Response:**
   Outdoor amenity areas will be provided consistent with the UDO.

14. Parking lots should not dominate the frontage of pedestrian-oriented streets, interrupt pedestrian routes, or negatively impact surrounding developments.
   **Response:**
   The Urban Limited frontage ensures development consistent with this guideline.

15. Parking lots should be located behind or in the interior of a block whenever possible. Parking lots should not occupy more than 1/3 of the frontage of the adjacent building or not more than 64 feet, whichever is less.
   **Response:**
   The Urban Limited frontage requires that parking is located behind the building, consistent with this guideline.

16. Parking structures are clearly an important and necessary element of the overall urban infrastructure but, given their utilitarian elements, can give serious negative visual effects. New structures should merit the same level of materials and finishes as that a principal building would, care in the use of basic design elements can make a significant improvement.
   **Response:**
   Any new parking structure must comply with the design standards given the Urban Limited frontage, consistent with this guideline.

17. Higher building densities and more intensive land uses should be within walking distance of transit stops, permitting public transit to become a viable alternative to the automobile.
   **Response:**
   A stop for WolfLine Route 6, Go Raleigh Route 12 and GoTriangle Route 100 is located near the property at the intersection of Hillsborough Street and Turner Street, consistent with this guideline.

18. Convenient, comfortable pedestrian access between the transit stop and the building entrance should be planned as part of the overall pedestrian network.
   **Response:**
   The development will provide convenient, comfortable pedestrian access between the building entrance and the transit stop, consistent with this guideline.

19. All development should respect natural resources as an essential component of the human environment. The most sensitive landscape areas, both environmentally and visually, are steep slopes greater than 15 percent, watercourses, and floodplains. Any development in these areas should minimize intervention and maintain the natural condition except under extreme circumstances. Where practical, these features should be conserved as open space amenities and incorporated in the overall site design.
   **Response:**
   There are no known sensitive natural resources on the property.
20. It is the intent of these guidelines to build streets that are integral components of community design. Public and private streets, as well as commercial driveways that serve as primary pedestrian pathways to building entrances, should be designed as the main public spaces of the City and should be scaled for pedestrians.

**Response:**
Sidewalks and driveways will be provided in accordance with the UDO.

21. Sidewalks should be 5-8 feet wide in residential areas and located on both sides of the street. Sidewalks in commercial areas and Pedestrian Business Overlays should be a minimum of 14-18 feet wide to accommodate sidewalk uses such as vendors, merchandising and outdoor seating.

**Response:**
Sidewalks will be provided in accordance with the UDO.

22. Streets should be designed with street trees planted in a manner appropriate to their function. Commercial streets should have trees which complement the face of the buildings and which shade the sidewalk. Residential streets should provide for an appropriate canopy, which shadows both the street and sidewalk, and serves as a visual buffer between the street and the home. The typical width of the street landscape strip is 6-8 feet. This width ensures healthy street trees, precludes tree roots from breaking the sidewalk, and provides adequate pedestrian buffering. Street trees should be at least 8 1/4" caliper and should be consistent with the City's landscaping, lighting and street sight distance requirements.

**Response:**
Street trees will be provided in accordance with the UDO.

23. Buildings should define the streets spatially. Proper spatial definition should be achieved with buildings or other architectural elements (including certain tree plantings) that make up the street edges aligned in a disciplined manner with an appropriate ratio of height to width.

**Response:**
The Urban Limited frontage ensures development will be consistent with this guideline.

24. The primary entrance should be both architecturally and functionally on the front facade of any building facing the primary public street. Such entrances shall be designed to convey their prominence on the fronting facade.

**Response:**
The Urban Limited frontage ensures development will be consistent with this guideline.

25. The ground level of the building should offer pedestrian interest along sidewalks. This includes windows entrances, and architectural details. Signage, awnings, and ornamentation are encouraged.

**Response:**
The Urban Limited frontage ensures development will be consistent with this guideline.

26. The sidewalks should be the principal place of pedestrian movement and casual social interaction. Designs and uses should be complementary to that function.

**Response:**
Sidewalks will comply with the applicable UDO standards, consistent with this guideline.

REZONING OF PROPERTY CONSISTING OF +/- 1.72 ACRES
LOCATED ON THE SOUTH SIDE OF HILLSBOROUGH STREET,
WEST OF TURNER STREET, IN THE CITY OF RALEIGH

REPORT OF MEETING WITH ADJACENT PROPERTY OWNERS ON
DECEMBER 20, 2017

Pursuant to applicable provisions of the Unified Development Ordinance, a meeting was held with
respect to a potential rezoning with adjacent property owners on Wednesday, December 20, 2017
at 6:30 p.m. The property considered for this potential rezoning totals approximately 1.72 acres,
and is located south of Hillsborough Street, west of Turner Street, in the City of Raleigh, having
Wake County Parcel Identification Numbers 0794-33-9499, 0794-33-9442, 0794-33-8395, 0794-
33-8360, 0794-33-8236, and 0794-33-8424. This meeting was held at the Jaycee Park Community
Center, located at 2405 Wade Avenue, Raleigh, NC 27607. All owners of property within 500 feet
of the subject property were invited to attend the meeting. Attached hereto as Exhibit A is a copy
of the neighborhood meeting notice. A copy of the required mailing list for the meeting invitations
is attached hereto as Exhibit B. A summary of the items discussed at the meeting is attached hereto
as Exhibit C. Attached hereto as Exhibit D is a list of individuals who attended the meeting.
EXHIBIT A – NEIGHBORHOOD MEETING NOTICE

To: Neighboring Property Owner

From: Michael Birch

Date: December 8, 2017

Re: Neighborhood Meeting for Potential Rezoning of 3411, 3413 Hillsborough Street and 10, 12, 14 and 18 Turner Street (the “Properties”)

We are counsel for a developer who is considering rezoning the Properties, which total approximately 1.72 acres in size and are located in the southwest quadrant of the intersection of Hillsborough Street and Turner Street. The Properties have the addresses of 3411, 3413 Hillsborough Street and 10, 12, 14 and 18 Turner Street, and have Parcel Identification Numbers 0794-33-9499, 0794-33-8424, 0794-33-9442, 0794-33-8395, 0794-33-8360 and 0794-33-8236. The Properties are currently zoned NX-3-UL and NX-3, and the proposal is to rezone the Properties to NX-5-UL.

You are invited to attend a meeting to discuss the potential rezoning. We have scheduled a meeting with surrounding property owners on Wednesday, December 20, 2017 at 6:30 p.m. This meeting will be held in the meeting room at the Jaycee Park Community Center at 2405 Wade Avenue, Raleigh, NC 27607.

The City of Raleigh requires a neighborhood meeting involving the owners of property within 500 feet of the Property prior to filing a rezoning application. After the meeting, we will prepare a report for the Planning Department regarding the items discussed at the meeting.

Please do not hesitate to contact me directly if you have any questions or wish to discuss any issues. I can be reached at 919.645.4317 and mbirch@morrisrussell.com. Also, for more information about rezoning, you may visit www.raleighnc.gov or contact the Raleigh City Planning Department at 919.996.2626 or rezoning@raleighnc.gov.

### 6.23.4 Trip Generation

**Meets TIA Conditions? (Y/N)**

- A. Peak Hour Trips ≥ 150 veh/hr  
  - No  
  - The expected increase in PM peak hour trips is 96. The expected increase in AM peak hour trips is 119.

- B. Peak Hour Trips ≥ 100 veh/hr if primary access is on a 2-lane street  
  - No  
  - The primary access, Hillsborough St., is not a two-lane road.

- C. More than 100 veh/hr trips in the peak direction  
  - Yes  
  - Using engineering judgement, the TIA trigger is waived for the 3 vehicles over the threshold.

- D. Daily Trips ≥ 3,000 veh/day  
  - No  
  - The expected increase in Daily trips is 224.

- E. Enrollment increases at public or private schools  
  - N/A  
  - Not Applicable.

### 6.23.5 Site Context

**Meets TIA Conditions? (Y/N)**

- A. Affects a location with a high crash history 
  - Severity Index ≥ 8.4 or a fatal crash within the past three years)  
  - No  
  - Severity Index is less than 8.4 for all intersections and there have been no fatal crashes.

- B. Takes place at a highly congested location 
  - Volume-to-capacity ratio ≥ 1.0 on both major street approaches  
  - No  
  - Does not take place at a highly congested intersection.

- C. Creates a fourth leg at an existing signalized intersection  
  - No  
  - No roads are being added.

- D. Exacerbates an already difficult situation such as a RR Crossing, Fire Station Access, School Access, etc.  
  - No

- E. Access is to/from a Major Street as defined by the City's Street Plan Map Major street - avenue with more than 4 lanes or boulevard  
  - No  
  - Access is from a mixed-use street.

- F. Proposed access is within 1,000 feet of an interchange  
  - No

- G. Involves an existing or proposed median crossover  
  - No

- H. Involves an active roadway construction project  
  - No

- I. Involves a break in controlled access along a corridor  
  - No

### 6.23.6 Miscellaneous Applications

**Meets TIA Conditions? (Y/N)**

- A. Planned Development Districts  
  - No

- B. In response to Raleigh Planning Commission or Raleigh City Council resolutions  
  - None noted as of...
