

# Rezoning Application and Checklist

Planning and Development Customer Service Center • One Exchange Plaza, Suite 400 | Raleigh, NC 27601 | 919-996-2500

Please complete all sections of the form and upload via the Permit and Development Portal ([permitportal.raleighnc.gov](http://permitportal.raleighnc.gov)). Please see page 12 for information about who may submit a rezoning application. A rezoning application will not be considered complete until all required submittal components listed on the Rezoning Checklist have been received and approved. For questions email [rezoning@raleighnc.gov](mailto:rezoning@raleighnc.gov).

Rezoning Request				
Rezoning Type	<input checked="" type="checkbox"/> General use	<input type="checkbox"/> Conditional use	<input type="checkbox"/> Planned Development	OFFICE USE ONLY Rezoning case # _____
	<input type="checkbox"/> Text Change to Zoning Conditions			
Existing zoning base district: IX-3-PL, R-10	Height:	Frontage:	Overlay(s): TOD & SRPOD	
Proposed zoning base district: RX	Height: 3	Frontage:	Overlay(s): TOD & SRPOD	
<b>Helpful Tip:</b> <a href="#">View the Zoning Map</a> to search for the address to be rezoned, then turn on the 'Zoning' and 'Overlay' layers.				
If the property has been previously rezoned, provide the rezoning case number:				

General Information		
Date: 4/16/2026	Date amended (1):	Date amended (2):
Property address: 5511 and 5507 Hillsborough St., 0 and 5508 Western Blvd.		
Property PIN: 0784318842, 0784317790, 0784317428 and 0784319416		
Deed reference (book/page): 019786/000741 (Hillsborough); 019188/02779 (Western)		
Nearest intersection: Hillsborough St. and Western Blvd.		Property size (acres): 3.57

Narrative of Zoning Conditions Offered

The property owner(s) hereby offers, consents to, and agrees to abide, if the rezoning request is approved, the conditions written above. **All property owners must sign each condition page.** This page may be photocopied if additional space is needed.

Property Owner(s) Signature: \_\_\_\_\_

Printed Name (and Title): \_\_\_\_\_

**Rezoning Application Addendum #1**

Comprehensive Plan Analysis	<b>OFFICE USE ONLY</b> Rezoning case #  _____
The applicant is asked to analyze the impact of the rezoning request and its consistency with the Comprehensive Plan. The applicant is also asked to explain how the rezoning request is reasonable and in the public interest.	

**Statement of Consistency**

Provide brief statements regarding whether the rezoning request is consistent with the future land use designation, the urban form map, and any applicable policies contained within the 2030 Comprehensive Plan.

On the future land use map, the parcels are identified as Neighborhood Mixed Use (Hillsborough Parcels) and Moderate Scale Residential (Western parcels). Residential Mixed Use zoning is consistent with these uses.

In addition, the City plans to facilitate the building of multifamily housing on these parcels, with at least 20% of the units designated as affordable (Policy H 2.9, H 2.7). Affordable units will have long term affordability of at least 20 years (H 2.6). The city will also be providing additional gap financing to incentivize the development of affordable housing (H 2.10). Rezoning these parcels for redevelopment is consistent with the City's Affordable Housing Location Policy exception area and City's Equitable Housing around Transit Policy (H.2.17). This location within a half-mile of BRT stations in a TOD will provide excellent access to transit for future residents (H 2.13, H 2.15).

**Public Benefits**

Provide brief statements explaining how the rezoning request is reasonable and in the public interest.

This request seeks to convert two industrial parcels to residential and increase residential density on all four parcels. The public will benefit from the development of the properties as affordable housing close to transit.

**Rezoning Application Addendum #2**

<b>Impact on Historic Resources</b>	<b>OFFICE USE ONLY</b> Rezoning case # <hr style="width: 20%; margin: 10px auto;"/>
The applicant is asked to analyze the impact of the rezoning request on historic resources. For the purposes of this section, a historic resource is defined as any site, structure, sign, or other feature of the property to be rezoned that is listed in the National Register of Historic Places or designated by the City of Raleigh as a landmark or contributing to a Historic Overlay District.	

**Inventory of Historic Resources**

List in the space below all historic resources located on the property to be rezoned. For each resource, indicate how the proposed zoning would impact the resource.

No historic resources are located on the parcels to be rezoned.

**Proposed Mitigation**

Provide brief statements describing actions that will be taken to mitigate all negative impacts listed above.

### Urban Design Guidelines

The applicant must respond to the Urban Design Guidelines contained in the 2030 Comprehensive Plan if:

- a) The property to be rezoned is within a "City Growth Center" or "Mixed-Use Center", OR;
- b) The property to be rezoned is located along a "Main Street" or "Transit Emphasis Corridor" as shown on the Urban Form Map in the 2030 Comprehensive Plan.

Urban form designation:

Click [here](#) to view the Urban Form Map.

<b>1</b>	<p>All Mixed-Use developments should generally provide retail (such as eating establishments, food stores, and banks), and other such uses as office and residential within walking distance of each other. Mixed uses should be arranged in a compact and pedestrian friendly form.</p> <p><b>Response:</b></p>
<b>2</b>	<p>Within all Mixed-Use Areas buildings that are adjacent to lower density neighborhoods should transition (height, design, distance and/or landscaping) to the lower heights or be comparable in height and massing.</p> <p><b>Response:</b></p>
<b>3</b>	<p>A mixed-use area's road network should connect directly into the neighborhood road network of the surrounding community, providing multiple paths for movement to and through the mixed-use area. In this way, trips made from the surrounding residential neighborhood(s) to the mixed-use area should be possible without requiring travel along a major thoroughfare or arterial.</p> <p><b>Response:</b></p>
<b>4</b>	<p>Streets should interconnect within a development and with adjoining development. Cul-de-sacs or dead-end streets are generally discouraged except where topographic conditions and/or exterior lot line configurations offer no practical alternatives for connection or through traffic. Street stubs should be provided with development adjacent to open land to provide for future connections. Streets should be planned with due regard to the designated corridors shown on the Thoroughfare Plan.</p> <p><b>Response:</b></p>
<b>5</b>	<p>New development should be comprised of blocks of public and/or private streets (including sidewalks). Block faces should have a length generally not exceeding 660 feet. Where commercial driveways are used to create block structure, they should include the same pedestrian amenities as public or private streets.</p> <p><b>Response:</b></p>
<b>6</b>	<p>A primary task of all urban architecture and landscape design is the physical definition of streets and public spaces as places of shared use. Streets should be lined by buildings rather than parking lots and should provide interest especially for pedestrians. Garage entrances and/or loading areas should be located at the side or rear of a property.</p> <p><b>Response:</b></p>

7	<p>Buildings should be located close to the pedestrian-oriented street (within 25 feet of the curb), with off-street parking behind and/or beside the buildings. When a development plan is located along a high-volume corridor without on-street parking, one bay of parking separating the building frontage along the corridor is a preferred option.</p> <p><b>Response:</b></p>
8	<p>If the site is located at a street intersection, the main building or main part of the building should be placed at the corner. Parking, loading or service should not be located at an intersection.</p> <p><b>Response:</b></p>
9	<p>To ensure that urban open space is well-used, it is essential to locate and design it carefully. The space should be located where it is visible and easily accessible from public areas (building entrances, sidewalks). Take views and sun exposure into account as well.</p> <p><b>Response:</b></p>
10	<p>New urban spaces should contain direct access from the adjacent streets. They should be open along the adjacent sidewalks and allow for multiple points of entry. They should also be visually permeable from the sidewalk, allowing passersby to see directly into the space.</p> <p><b>Response:</b></p>
11	<p>The perimeter of urban open spaces should consist of active uses that provide pedestrian traffic for the space including retail, cafés, and restaurants and higher-density residential.</p> <p><b>Response:</b></p>
12	<p>A properly defined urban open space is visually enclosed by the fronting of buildings to create an outdoor "room" that is comfortable to users.</p> <p><b>Response:</b></p>
13	<p>New public spaces should provide seating opportunities.</p> <p><b>Response:</b></p>

14	<p>Parking lots should not dominate the frontage of pedestrian-oriented streets, interrupt pedestrian routes, or negatively impact surrounding developments.</p> <p><b>Response:</b></p>
15	<p>Parking lots should be located behind or in the interior of a block whenever possible. Parking lots should not occupy more than 1/3 of the frontage of the adjacent building or not more than 64 feet, whichever is less.</p> <p><b>Response:</b></p>
16	<p>Parking structures are clearly an important and necessary element of the overall urban infrastructure but, given their utilitarian elements, can give serious negative visual effects. New structures should merit the same level of materials and finishes as that a principal building would, care in the use of basic design elements can make a significant improvement.</p> <p><b>Response:</b></p>
17	<p>Higher building densities and more intensive land uses should be within walking distance of transit stops, permitting public transit to become a viable alternative to the automobile.</p> <p><b>Response:</b></p>
18	<p>Convenient, comfortable pedestrian access between the transit stop and the building entrance should be planned as part of the overall pedestrian network.</p> <p><b>Response:</b></p>
19	<p>All development should respect natural resources as an essential component of the human environment. The most sensitive landscape areas, both environmentally and visually, are steep slopes greater than 15 percent, watercourses, and floodplains. Any development in these areas should minimize intervention and maintain the natural condition except under extreme circumstances. Where practical, these features should be conserved as open space amenities and incorporated in the overall site design.</p> <p><b>Response:</b></p>
20	<p>It is the intent of these guidelines to build streets that are integral components of community design. Public and private streets, as well as commercial driveways that serve as primary pedestrian pathways to building entrances, should be designed as the main public spaces of the City and should be scaled for pedestrians.</p> <p><b>Response:</b></p>

21	<p>Sidewalks should be 5-8 feet wide in residential areas and located on both sides of the street. Sidewalks in commercial areas and Pedestrian Business Overlays should be a minimum of 14-18 feet wide to accommodate sidewalk uses such as vendors, merchandising and outdoor seating.</p> <p><b>Response:</b></p>
22	<p>Streets should be designed with street trees planted in a manner appropriate to their function. Commercial streets should have trees which complement the face of the buildings and which shade the sidewalk. Residential streets should provide for an appropriate canopy, which shadows both the street and sidewalk, and serves as a visual buffer between the street and the home. The typical width of the street landscape strip is 6-8 feet. This width ensures healthy street trees, precludes tree roots from breaking the sidewalk, and provides adequate pedestrian buffering. Street trees should be at least 6 1/4" caliper and should be consistent with the City's landscaping, lighting and street sight distance requirements.</p> <p><b>Response:</b></p>
23	<p>Buildings should define the streets spatially. Proper spatial definition should be achieved with buildings or other architectural elements (including certain tree plantings) that make up the street edges aligned in a disciplined manner with an appropriate ratio of height to width.</p> <p><b>Response:</b></p>
24	<p>The primary entrance should be both architecturally and functionally on the front facade of any building facing the primary public street. Such entrances shall be designed to convey their prominence on the fronting facade.</p> <p><b>Response:</b></p>
25	<p>The ground level of the building should offer pedestrian interest along sidewalks. This includes windows entrances, and architectural details. Signage, awnings, and ornamentation are encouraged.</p> <p><b>Response:</b></p>
26	<p>The sidewalks should be the principal place of pedestrian movement and casual social interaction. Designs and uses should be complementary to that function.</p> <p><b>Response:</b></p>

Rezoning Checklist (Submittal Requirements)					
To be completed by Applicant			To be completed by staff		
General Requirements – General Use or Conditional Use Rezoning	Yes	N/A	Yes	No	N/A
1. I have referenced this <b>Rezoning Checklist</b> and by using this as a guide, it will ensure that I receive a complete and thorough first review by the City of Raleigh	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Pre-application conference.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Neighborhood meeting notice and report	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Rezoning application review fee (see <a href="#">Fee Guide</a> for rates).	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Completed application submitted through Permit and Development Portal	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

19. Common Signage Plan	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## **\*Signature Requirements**

### **1. Accepted Signatures**

Rezoning applications and conditional pages (when applicable) must be signed by the property owner(s) listed on the Wake County Deeds registry for the property.

If the owner and/or applicant is a corporate entity, the application must be signed by a duly authorized representative of the applicant (the "Manager" or "Managing Member" listed on the NC State Business Secretary page). If that is not readily apparent to the City's reviewer(s), the signatory may be asked to provide documentation that such person is authorized to make a request to rezone the property and/or submit to the property being placed in a conditional district.

Property owner signatures for rezoning applications will only be accepted in the following forms:

1. Original, wet signatures – If a rezoning application is signed with a physical signature, the original, wet copy must be submitted to city staff before the application is deemed complete.
2. Adobe or DocuSign e-signatures – If a rezoning application is signed electronically, it must be either an Adobe or DocuSign signature. The signature verification page must be submitted for the application to be deemed complete.

## **\*\*Differentiation Between Property Owner, Applicant, & Point of Contact**

### **1. Property Owner/Applicant**

The Property Owner is the individual(s) or organization listed on Wake County Deeds for the property.

- For a conditional rezoning request, the property owner must be the individual making the rezoning request (i.e. the applicant).
- For a general use rezoning request, the property owner and applicant (individual making the request) can be different for the purposes of the rezoning application.

### **2. Point of Contact**

The Point of Contact is the individual that city staff will coordinate with throughout the rezoning process. This section can be left blank if the property owner and/or applicant intends to be staff's main point of contact throughout the rezoning process.

## NOTIFICATION LETTER TEMPLATE

Date:

Re: Potential (REZONING/TEXT CHANGE TO ZONING CONDITIONS) of (SITE LOCATION ADDRESS(ES) AND WAKE COUNTY PIN(s))

Neighboring Property Owners and Tenants:

You are invited to attend a neighborhood meeting on (MEETING DATE and TIME). The meeting will be held at (MEETING LOCATION, INCLUDING ADDRESS) and will begin at (TIME).

The purpose of this meeting is to discuss a potential rezoning of the property located at (SITE ADDRESS AND NEARBY LANDMARKS/NEAREST INTERSECTION). This site is currently zoned (CURRENT ZONING DISTRICT- FULL DISTRICT AND ABBREVIATION) and is proposed to be rezoned to (PROPOSED ZONING DISTRICT – FULL DISTRICT AND ABBREVIATION). (ANY OTHER RELEVANT DETAILS OF THE REQUEST.)

Prior to the submittal of any rezoning application, the City of Raleigh requires that a neighborhood meeting be held for all property owners and tenants within 500 feet of the area requested for rezoning.

Information about the rezoning process is available online; visit [www.raleighnc.gov](http://www.raleighnc.gov) and search for "Rezoning Process." If you have further questions about the rezoning process, please contact Raleigh Planning & Development at 919-996-2682 (option 2) or [rezoning@raleighnc.gov](mailto:rezoning@raleighnc.gov).

If you have any concerns or questions about this potential rezoning I (WE) can be reached at:  
(NAME)  
(CONTACT INFO)

Sincerely,

## SUMMARY OF ISSUES

A neighborhood meeting was held on April 15, 2026 (date) to discuss a potential rezoning located at 5507 & 5511 Hillsborough St and 0 & 5508 Western Blvd (property address). The neighborhood meeting was held at Method Community Center (location). There were approximately 8 (number) neighbors in attendance. The general issues discussed were:

### Summary of Issues:

Neighbors expressed concern over noise pollution from loss of trees on the site. Townhome HOA owns the property 20' back from the buildings; some of the trees are within that boundary. City staff expressed that trees within the 50' stream buffer (Western Blvd side) will remain. City staff explained the RFP process and how Community Priorities (like retention of any trees on the City property behind the townhomes) can be added into scoring criteria.
Residents expressed concerns about safety for pedestrians, especially at the Hillsborough and Western intersection. City staff explained that the BRT streetscape will be designed with safety in mind. Residents were informed of upcoming BRT community engagement in the summer/fall of this year.
Residents were also concerned about parking on Etta Burke. City staff will discuss options with Transportation for restricting parking on Etta Burke.
