bradyswine We'd like to congratulate Councilwoman Lesli Harris, Director of Homeless Services & Strategy Nate Fields as well as the entire OHSS, and the rest of the New Orleans City Council for following through on their promise to clean up the Downtown Development District by housing the citizens living under the overpass and then cleaning and sanitizing the area. It has been an ongoing issue for over a decade now, and the bureaucratic red tape as well as the serious humanitarian component was surely laden with Everest-sized complications, but they have managed to accomplish the Herculean task of housing those who would take homes and truly clearing the area for the first time in ages. I know there is still much work to be done for them, but from this business's point of view, our pleas for the victims of homelessness were heard and our grievances against the disorder and debris were satisfied. Today, we can look out the front windows of our business and see a better New Orleans. Good Job and Thank you, once again. #nola #nolaproud #followyournola #smallbusiness # @wwltv

All Neighbors are Winning with this Approach!

HOUSING AND URBAN ISSUES

New Orleans Has Achieved a 12 Percent Reduction in Its Unsheltered Population

A new city office focused on homeless services has given a boost to programs to help the unhoused in New Orleans.

POLICY / HOUSING

A new strategy to house homeless people

Some leaders have a novel idea to clear tent encampments: pay landlords more money.

Secure Remaining \$12.3M to Reach our 1,500 Goal

- As of January 1, UNITY has executed its new grants with HUD and are actively housing individuals using all their HUD awarded resources.
- To complete the initiative, we need to secure the following funds:
 - **\$1.3M in private donations** for the Flex Fund
 - **\$11M in public and private resources** to provide the remaining 515 rehousing packages in 2025.

Need Additional Resources

	Initiative Budget	Resources Secured			Gap
		UNITY	City	Private Funders	
Rehousing Packages	1,500	827 <i>(Federal & State Funds)</i>	158 <i>(ARPA Funds)</i>		515 (\$11M)
Flex Fund	\$3M		\$1.5M	\$200K	\$1.3M

Threats to Progress

- **Lack of Private Investment**
 - Only secured \$200K of the \$1.5M
 - Lack of confidence is rooted in confusion about the what the existing resources can be used for and performance reporting between the City and UNITY
