RALEIGH ARTS COMMISSION
2019-2020 UNIVERSAL ACCESSIBILITY CHECKLIST

Applicant Name:

Disability is not a 'brave struggle' or 'courage in the face of adversity'... Disability is an art. It's an ingenious way to live.
- Neil Marcus, Actor, Playwright, Performance Artist

The Universal Accessibility Checklist is one tool used by the Raleigh Arts Commission to enable applicants to show how successfully their organizations engage people with disabilities in their programming and activities. Inclusion is the act of creating environments in which someone with a disability is and feels welcomed, respected, supported, and valued to fully participate. A universally accessible program is one that a person with a disability can not only attend, but one where they can enjoy the same high quality experience as other participants. The focus is not on the minimum standards set out by the Americans with Disabilities Act, but on the use of best practices with a goal of full inclusion, which is at the core of "universal accessibility". The Commission understands that most organizations are not currently universally accessible, but it is interested in learning how applicants are moving toward that goal.

Please indicate the accessibility accommodations and services your organization provides by selecting a choice from the drop-down menu that appears when you click in each box:

UNIVERSAL ACCESSIBILITY CHECKLIST
FREQUENTLY ASKED QUESTIONS

With the passage of the Americans with Disabilities Act on July 16, 1990, public and private institutions must be in compliance with legislation designed to reduce the physical and social barriers facing over 49 million disabled Americans. Assessing your present facility, programs, and operations is the first step and will help your organization identify any changes needed. This checklist will help determine your organization's accessibility. It does not include the specifications for physical accessibility that are part of the ADA, and we do not use this information to ensure your compliance. That is your responsibility.

Q: How can I get an ADA Checklist for Existing Facilities?

A: The checklist can be downloaded from the following website: www.ada.gov/racheck.pdf

Q: Should the Universal Accessibility Checklist be answered in regards to the specific project, or the organization as a whole?

A: The checklist should be focused on the project in the application. If the application is for an entire year, all venues/ facilities utilized in the year should be considered. If the location of the project takes place on a larger campus/facility, focus your responses on the project's location.

Q: Can I complete this form if I do not know the venue of my project?

A: Please complete as much as you can at the time of submission. You will be asked to update this checklist once you have chosen a location.

Q: Is "No" an acceptable answer?

A: Yes. This checklist lists the variety of accommodations or considerations that should be part of the planning process for any program. While you may not be able to answer "Yes" to every question, your Accessibility Plan should address the procedures and timeline to include this in the future.
