Deco Metal Art

(910) 463-1279

www.decometalart.com

Wilmington, N.C.

The company makes custom-cut metal inlays for decorative concrete artisans who want to add stainless steel or brass inlays such as logos, monograms or border art to their work. Using a high-resolution, computerized CNC plasma cutter, the company can cut customer's designs to extremely precise dimensions in either stainless steel or brass. All inlays include headed metal studs welded to the underside for secure attachment to concrete.
