Park Concept Alternatives
A. EDUCATION THROUGH INTERPRETATION

An increase in community interaction with the site through multiple connections and interpretive educational spaces allows visitors of the park to experience and gather within the Walnut Creek Wetland site.
B. CULTURAL AWARENESS
Culturally unique and artistic exhibits inform park visitors about the wetland features while preserving a significant amount of the site for invasive species management and conservation.
C. STEWARDSHIP AND ACCESS
Access and views from the perimeter of the park site are improved through branding, signage, artistic entry gateways and enhancements to existing street bridge crossings to increase the community’s awareness and appreciation of the cloaked wetland park.
