

# Android Phone Basics 1

Whether you're brand new to using an Android phone or just want to sharpen your skills, this session is your gateway to mastering your device with confidence.

Some of what we will cover:

- Lock Screen and Security
- Quick Access to Notifications and
- Popular Settings
- Connecting to Wi-Fi (Wireless Internet Network)
- Discuss Secure and Unsecure Networks
- How to Search for Applications on the Android Phone
- Create a Contact
- Copy & Paste
- Make a Phone Call
- Send a Text Message
- Your Google Account and what is Associated with Google
- Use your web browser to Search for information online
- Camera

Please know your Android Account information. Be advised the screenshots shown in class may not match your Android phone exactly due to the different manufacturers that sell Android phones. Please bring your Android Phone because none will be provided.
