

# DIY Bird Feeders

## Things You'll Need

- Bird Seed
- Gelatin
- Cookie Cutter
- String

## Steps

1. Mix Gelatin with 1/4 cup of hot water.
2. Add 3/4 cup of bird seed.
3. Mix everything together.
4. Transfer seed mixture into a cookie cutter making sure all areas are filled evenly.
5. Let seed mixture harden in the cookie cutter for a few hours.
6. Once hardened remove from cookie cutter and use a string to hang the bird feeder outside you window.

Most important step, enjoy watching the birds!
