

Easy Batik

Ages 5-7 *Total time: 1 hr

Things you will need

- Wax paper
- Fabric
- Washable gel glue
- Acrylic or tempera paint
- Paint Brushes

Steps

1. Prepare fabric with a layer of wax paper underneath.
2. Draw your image straight on to your fabric with your glue bottle (If kids have difficulty with squeezing the bottle pour a little in a cup and use a paintbrush).
3. When finished let dry completely for 6 or more hours.
4. Prepare your paint: Water down your paint on a palette.
5. Paint the fabric and allow the paint to dry.
6. Remove the glue: Soak the fabric in a warm water bath. To help get the glue off you can scrub it a bit.
7. Your finished batik masterpiece is done! Turn it into a bandana, or sew it into a pillowcase!
