2027-2028 Raleigh Arts Commission

Program Support 1 Grant

Sample Application

Excel File Application Forms – Important Information

Raleigh Arts uses an online application system for most of the application forms. However, the application process also includes three-four Excel file forms for you to download, complete, then upload back into the system. They are:

- Board Information Form
- Financial Form
- Financial Attachment Form (Only a few applicants need to complete this form.)
- Participation Statistics Form

Advice for Completing the Excel File Forms:

- Only use Excel to complete these forms once you've downloaded them from the online grant application system.
- **Do NOT use Google Sheets.** Google Sheets corrupts the protections placed on Excel files to help you and will not consistently keep formulas intact.
- The forms have been designed to automatically calculate all totals to lessen your workload and to provide opportunities for cross-checking data in the forms against organizational records.
- To decrease completion time, the forms have also been designed to automatically repeat information that appears on multiple pages. Therefore, you may not be able to enter data on every line of a form.
- The Excel forms have multiple spreadsheets/tabs. Be sure to review each tab and fill in information on all applicable sheets within the form.
- We have also protected the files to keep the time-saving features and formulas safe, so they can benefit you. It means there are parts of these Excel files that you can't access and/or change.
- If using Excel is a problem for you and your organization, please contact one of Raleigh Arts contacts listed in the Program Support 1 Grant Guidelines for assistance.

G. Universal Accessibility

***Disability is not a 'brave struggle' or 'courage in the face of adversity'... Disability is an art.
It's an ingenious way to live.***

- Neil Marcus, Actor, Playwright, Performance Artist

The Universal Accessibility Checklist is one tool used by the Raleigh Arts Commission to help applicants show how successfully their organizations engage people with disabilities in their programming and activities. Inclusion is the act of creating environments in which someone with a disability is and feels welcomed, respected, supported, and valued to fully participate. A universally accessible program is one that a person with a disability can both attend and enjoy the same high-quality experience as other participants. The focus is not on the minimum standards set out by the Americans with Disabilities Act, but on the use of best practices with a goal of full inclusion, which is at the core of “universal accessibility.” The Commission understands that most organizations are not fully universally accessible, but it is interested in learning how applicants are moving toward that goal.
