

Greenway Closure

Crabtree Creek Trail

The Crabtree Creek Greenway Trail Will be closed from Hertford Street to North Hill Park connector and from mile marker 13.75 to 14.5 beginning September 27th, 2021 through October 1st 2021.

Maintenance crews will be working to make needed repairs to structure #41 on Crabtree Creek Trail starting September 27th. This closure will last until October 1st when our crews should be finished with the needed repairs. Damage to this structure was caused by a fallen tree and landed on it causing damage to the concrete decking. There is no detour around the structure at this time due to the grade of the terrain and the creek below the structure.
