[Fibers - Traditional Japanese Embroidery](#)

The technique of Japanese embroidery goes back more than 1,600 years. We use silk and metallic fibers on silk fabrics to produce traditional and modern designs for framing. Instruction follows an orderly progression of steps with a new design at each level. This workshop is open to beginners as well as current students at all levels. Current students should bring projects they are working on. New students are required to purchase kit and supplies from the instructor, payable at first class. Two options are available, see the supply list on Sertoma's webpage for details and cost. Instructor needs one month's notice to order supplies for new students. Additional supplies will be available for purchase from instructor in class. New students are highly encouraged to contact the instructor for more information before enrolling. 1 session.

Papermaking

[Papermaking - Plants to Paper](#)

Learn to make beautiful handmade sheets of paper in this hands on workshop. The workshop will begin with a demonstration and hands-on processing, cooking, scraping, and beating of bast fibers (e.g. kozo) into both washi paper using Eastern, specifically Japanese, sheet forming methods and thick alternative papers. Embracing the communal aspect of papermaking, we will concoct and experiment with pulp mixtures combining techniques of both the eastern and western worlds of sheet forming by exploring alternative techniques and materials to use with bast fibers. Bring your lunch and sign up with a friend or a loved one to explore this historical craft of making paper fibers from the plants all around us. \$15 supply fee due to the instructor at the start of class. All Levels of Experience Welcome. 2 sessions.

[Papermaking – Western Papermaking Workshop](#)

Learn to make handmade paper from start to finish in this weekend workshop. During this workshop you will be introduced to the basics of the Critter Hollander Beater and its use in Western hand papermaking. We will look at different types of fiber, discuss their physical properties, how to process them, and the type of paper they produce. Through hands-on demonstrations you will learn to prepare the studio, consistent sheet formation, and will make paper from cotton rag and hemp fibers. This program can be noisy and involves getting your hands wet. Students that need less stimulation may work with instructor for achievable comfort. Touch is a large part of this craft and engages with many different textures within wet and dry environments. Waterproof apron and shoes suggested. No experience required. \$15 supply fee due to instructor at the start of class. 2 sessions.

Photography

[Photography - The Art of Capturing Shadows: Cyanotype Photography](#)

Enjoy making cyanotype photography from plants in this rewarding, educational, and playful workshop. Sarah Ann has been offering workshops and university courses in cyanotype printing for over 8 years. This one-day class on creating cyanotype photography with plants and light offers a fun, easy, and rewarding experience in printmaking using the cyanotype technique as well as an introduction to getting the supplies on your own. You'll make your own cyanotypes and go home with your very own, usually frame-worthy, cyanotype art! The cyanotype process, also known as the blueprint process because of its deep blue color, was first introduced in the early 1800s. For artists and scientists, this cyanotype workshop is rewarding. Experimentation is encouraged, no mistakes are possible in cyanotype art! No experience required. \$5 supply fee due to the instructor at the start of class will cover the cost of cyanotype chemicals. All other supplies included. 1 session.
