

## Resource Recovery Division's FY24-26 Objectives & Initiatives

Raleigh Water's Resource Recovery Division has developed Objectives and Initiatives that became effective July 1, 2024, through June 30, 2027. When developing these objective and initiatives, we consider input from interested parties and stakeholders. Below are the Objectives and Initiatives; should you have questions or comments, please send them Gracelyn Sanders at: [Gracelyn.Sanders@raleighnc.gov](mailto:Gracelyn.Sanders@raleighnc.gov)

Intended Outcomes	Objectives	Initiatives
1. Enterprise Resiliency	ER: 2. Promote efficient and safe management of materials and equipment used in Utility operations	ER 2.2 – Implement and transition to the bioenergy program
2. Enterprise Resiliency	ER: 3. Institute environmental and social justice practices that minimize the Utility's impact on the environment, energy consumption, and carbon footprint	ER 3.1 – Track renewable natural gas production and associated energy offset for the bioenergy program
3. Infrastructure Strategy and Performance	ISP: 2. Protect and maintain existing assets and enhance operations necessary to ensure system reliability	ISP 2.4 – Develop a scope of work for a third-party vendor to address inflow and infiltration (I&I)
