

Safe Streets for All

The City of Raleigh is taking proactive steps to enhance safety within our community. The City has secured a \$1 Million Safe Streets for All (SS4A) grant from the U.S. Department of Transportation (USDOT). The grant award is for Raleigh to develop a Vision Zero Comprehensive Safety Action plan.

What is Vision Zero?

Vision Zero is a city-adopted initiative to reduce and eliminate serious injuries and fatalities along our transportation network while increasing safe, healthy, and equitable mobility for all.

What is a Comprehensive Safety Action Plan?

This plan is the basic building block to significantly improve roadway safety, aimed at reducing and eliminating serious injury and fatal crashes affecting all roadway users. It includes:

Leadership Commitment and Goal	Policy and Process Changes
Safety Analysis	Strategy and Project Selections
Community Input	Progress Updates and Transparency
Equity Considerations	

Want to Provide Your Input on the Plan?

The City will be engaging with the public through an online survey and in-person events to ask community members why safety is important to them.

Check the website in November for updates!

City of Raleigh Crash History

As the second-fastest growing metro area in the U.S., efforts to improve roadway safety is vitally important.

In 2023, Raleigh saw -

19,247 total crashes	41 fatalities from 36 crashes	11 fatalities involving pedestrians
----------------------	-------------------------------	-------------------------------------

71% of passenger vehicle fatalities were not wearing a seatbelt.

54% of fatal crashes involved speeding.
