The North Carolina Department of Health and Human Services reports that an average of nine North Carolinians died each day from a drug overdose. Often, the drugs responsible for these deaths are prescription medications found in our homes. If you or someone you know is experiencing an alcohol or other drug problem, you are not alone. The good news is that recovery is possible. There is hope. Reach out to Raleigh Substance Use Advisory Commission for more information suac.raleigh@gmail.com

47.2% of people who misuse prescription medications get them from friends and family. Do your part to prevent substance misuse and overdose death. Secure the medications you need. Dispose of the rest. <https://lockyourmeds.org/nc/>
